Established 1887

An Arab shopkeeper questioned an Israeli officer Monday about why soldiers forced open his shop. It was the fourth day of a general strike called by Palestinians in the occupied West Bank.

## 3d Palestinian Slain on West Bank As Riots, General Strikes Continue

By William Claiborne Washington Post Service JERUSALEM — Israeli security forces shot and killed an Arab student Monday — the third Palestin-ian youth to die in a week — as the

most violent and protracted riots in six years continued to sweep across the occupied West Bank. From Jenin, the West Bank's northernmost town, to Hebron in the south, angry crowds of Arab youths pelted Israeli Army patrols

with stones and threw gasolinefilled bottles as the army rushed in reinforcements in an attempt to quell the disturbances. General commercial strikes to protest the shootings and the mili-

tary government's decision Friday to dissolve the municipal council of Al-Bireh were extended for two more days by the mayors of most major West Bank towns, and Arab shookeepers defied orders by Is-raeli authorities to reopen.

The most serious disturbance -Monday-occurred in the Deir Am-

mar refugee camp, near Ramallah, where Mohammed Hamid Badha, 17, was shot to death when Israeli troops opened fire on rock-throwing demonstrators. Two students

An Israeli Army command spokesman said that an army pa-trol had tried to disperse the demonstrators with tear gas and by shooting in the air, and that the soldiers opened fire "only when their lives were in danger."

### Test of Will

Officials said the disturbances were the most serious since the "land day" riots of 1976, when Palestinians clashed with security forces in the West Bank and in predominantly Arab towns in the Galilee region of Israel. The current violence stems from

a test of will between the militantly nationalistic mayors of the West Bank's major Arab cities and a oew civil administrator of the Israeli military government, who has declared his intention to develop

tinian mayors who openly identify with the Palestine Liberation Or-ganization. The administrator, Menachem Milson, ordered the tissolution of the Al-Birch council.

On Monday, Israeli police and security forces rounded up Al-Birch's municipal employees, who went on strike Friday when the council was disbanded, and drove them to the city hall, where they were ordered to resume work. Paiestinian sources said the employ-

# Iraq Said to Blame U.S

By Edward Cody

BAGHDAD - The Iraqi government has protested several times to the United States over Israd's reported supply of arms and military equipment to Iran, de-manding that the Reagan adminis-tration order Israel to halt the shipments, reliable sources report-

of the exchanges.

Diplomats at the small U.S.-in-terest section here have responded by saying that the equipment Israel is providing to Iran is not, as far as Washington knows, subject to re-export controls imposed on U.S.-made arms sold to Israel or on arms produced in Israel under U.S. license, the sources said.

"The Israelis have quite an arsenai of their own," explained a Western diplomat with knowledge

[Iranian forces crushed Iraqi strongholds west of Shush and Dezful in southern Iran on Monday, killing or wounding 10,000 Iraqi troops and capturing 2,000, according to Tehran radio monitored in Nicosia by The Associated

GREETING — British Prime Minister Margaret Thatcher greeted Indian Prime Minister India Gandhi Monday on the steps of No. 10 Downing St. Mrs. Gandhi is in Britain to inaugurate The Festival of India, a cultural celebration.

[Two Iraci brigades and two divisions were "completely destroyed" in the pre-dawn attack, according to communiques broad-cast by Tehran radio and carried

by the Iranian news agency.
[In a series of "lightning attacks," the Iranian forces "liberated a vast region" occupied by the Iraqi forces since the start of the war on Sept. 22, 1980, a commu-

[Baghdad radio in Iraq acknowledged that a major framan attack was under way. Iraq said that Iran had suffered heavy losses.]

Complicating the Issue

Despite the U.S. response to Ira-qi officials, the Israeli arms issue seems likely to complicate U.S. ef-forts to win acceptance here for its proclaimed policy of strict neutrality in the 18-month-long war at the oorthern end of the Gulf.

Comments from officials in Presideot Saddam Hussein's Ba'athist government indicate they believe that Israel would not have entered into an arms supply rela-tionship with the supposedly anti-Israeli regime in Tehran without Washington's acquisscence. Without reference to technicali-

ties of U.S. re-export control legis-lation, U.S. identification with Israel is so strong in the Arab world that almost any Israeli actions are often viewed as remote-controlled

Yet Iraq was recently removed from the State Department list of countries accused by the U.S. of supporting terrorism. The United States has not indicated any willingness to sell arms to Iraq, the in-formants said, but they noted that Washingtoo views favorably French deliveries of previously contracted Mirage fighters and recent sales of French artillery and

This flows in part from U.S. hostility toward the radical Islamic regime in Iran. In addition, any argement that draws Iraq toward the West and away from the Soviet Union, its principal arms supplier for a decade, is considered by the United States to be a plus, the sources said

### Deal With Britain

In this perspective, the Reagan administration is believed likely to view with similar favor a recent deal between Iraq and Britain for British experts to repair about 160 British-made Chieftain tanks captured from Iranian forces. British diplomats are said to feel the tank repair agreement could lead to more substantial military sales. In an apparently unrelated ar-

rangement, a group of highly trained former British commandos and personal-protection experts have contracted with the Iraqi gov-ernment to train Mr. Hussein's (Continued on Page 2, Col. 8)

## Space Shuttle Reaches Orbit On 7-Day Trip CAPE CANAVERAL, Fla. —

The space shritle Columbia lifted off Monday, streaking into orbit on its third and toughest test

flight.
With Col. Jack R. Lousma and
Col. C. Gordon Fullerion at the controls, the shuttle was launched at 11 a.m., an hour behind sched-ule because of a ground equipment

The shuttle is scheduled to circle the Earth 115 times in seven days. Col. Lousma and Col. Fullerton are to subject Columbia to a thorough flexing of the ship's systems. They will also conduct 14 scientific

Then they will bring Columbia bome to a contingency landing site in New Mexico because the prima-ry runway in the California desert is soaked from rain.

If successful, the mission will

advance Columbia significantly toward operational status. The shuttle is to carry a Defense Department payload on its fourth and last test flight this summer before archive its first forchire introfore making its first for-hire jour-ney with a pair of communication

A heater problem developed shortly before technicians were to start pumping thousands of gallons of frigid liquid oxygen into the ship's external tank at 3:30

The nitrogen heater on the mo-bile launch platform failed to oper-

the launch pad to fix it. The problem was reported corrected at 4:22 a.m. The heater was required to

warm nitrogen to prepare the ship's main engines for flight.

It was the only significant hitch in an otherwise near-flawless countdown. NASA said the onehour flight delay, ordered by George Page, the launch director, mean that everything in the weekloog missioo would be set back by

The spaceship, which weighed 2,239 tons at liftoff, rode a pillar of yellow flame into the partly cloudy-sky, leaving a long trail of smoke

"It looks great," said President Reagan, who watched the launch on television in the White House. The twin solid propellant booster rockets split away on schedule two minutes after launch. The Columbia was 31 miles (50 kilometers) high at the time and 29 miles northeast of the cape.

The shuttle flew a slightly lower and faster course out of the atmosphere in a test of more efficient paths that will be used later when it carries satellites on operational flights starting in November. Mission Cootrol in Houston re-

orted that the ship was performing well as it accelerated toward a 17,500-mile-an-hour orbit. Boy the first part of this ride is a real barn burner," Col. Lousma

Col. Lousma, 46, was in space After the launch the astronauts within 31 seconds before an eight-once before, for 59 days aboard reported the abnormal tempera-

The space shuttle Columbia lifted off Monday from Cape Canaveral on its third flight.

At 11:41 a.m. Columbia powered into orbit with a 132-secood burst of thrust from its twin maneuvering engines. It was now down to 112 tons. "A good burn," reported Mission Control in Hous-

One of the three auxiliary power units that drive the ship's hydrau-lie flight control system overheated on the climb to orbit and was turned off as a precantionary mea-sure. But it later cooled, and Mis-sion Control said it should oot af-

feet the flight.

An estimated quarter million spectators turned out for the launch. They packed causeways, beaches and vacant lots. They even parked their cars on highway median strips to get a glimpse of the

Skylab 2 in 1973. Col. Fullerton, 45, has been an astronaut for 16 years but had oever before flown

in space.

They went to bed shortly after 7 p.m. Sunday after talking with Mr. Reagan by phone and reviewing their flight plan. Because of the delay, they were allowed to sleep an extra hour. Officials woke them shortly after 6 a.m. for breakfast and a brief medical exam. By 8:30

a.m. they were at the launch pad,
"Looks like we've got a great
day," Col, Lousma said in his first radio report from the Columbia's cockpit, two hours and 10 minutes before launch time.

"Yeah, it looks good right now even though we are an hour down," said an engineer in the launch cootrol center,

ture reading on one of the ship's three hydraulie system power

A muoute later cootrollers told the astronauts to shut down that one auxiliary power unit. There was no danger to the pilots. With the astronauts in the two-

level cabin was a cage containing dozens of moths, honeybees and houseflies for a experiment to determine how the insects fly in weightlessness, and a miniature greenhouse to see how out, bean

and pine seedlings grow in space.

Although the launch was an hour late, it was the first time the shuttle had made its launch date. The first launch came within nine minutes of blastoff when a computer problem caused a two-day delay. The second flight got to

## Warsaw's Spring: Nothing Much Is Melting but the Snow

By John Damton New York Times Service

WARSAW - There is a strong whiff of spring in the wind that sweeps across the Visuala River. Day after day the sun pokes through the gray skies. It bathes the city in gold and steadily mells the few remaining humps of black-ened snow and ice, which have retreated to the most darkly shaded corners in courtyards and

But Warsaw does not seem very spring-like. There are not many smiles to be seen. Others have nosmiles to be seen. Others have no-ticed a curious phenomenon. Something is missing. In Warsaw, the harbingers of spring are not ro-bins but Gypsies. In past years, they seemed to appear out of nowhere, staking out strategic spots in front of major hotels for heaving.

Symbolic Jewelry

This year, so far at least, the Gypsies have not appeared. One theory is that they are lying low, since the martial law authorities have taken a stern attitude toward what they call marginal elements of society. The police demand all kinds of documents and proof of employment. Able-bodied men between the ages of 16 and 45 who are out of work may be conscripted for unpaid labor.

There is another explanation. Reliable sources report that the au-

thorities have been rounding up for recess, they sit quietly in the corridors.

By far the most effective pro-

Poles have developed over the ages a remarkable ingenuity in coming up with symbols of protest in the last century. insurrection against the Russian occupiers was crushed, many wore black mourning strips.

Under martial law, the latest fad in decorative jewelry is a tiny elec-trical device from a radio or televi-sion. The innocuous-looking bit of circuitry is worn by women as a

According to sources in the sus-pended Solidarity union, workers in an entire division at the Ursus tractor factory, about 700 men and women, turned up for work recently wearing Solidarity buttons. The police were called but by the time they arrived, the buttons were gone and the workers acted as if nothing had happened.

tion. They are given exit permits tests have been aimed against fig-but oo passports. but oo passports.

pendant and by men as a lapel pin.
The device is called a resistor. Its
meaning is self-explanatory.

At some Warsaw high schools, students have from time to time staged what are called "silent demonstrations." Instead of going out

have publicly espoused the cause of martial law too cultursiastically. Weeks ago, an actor who had praised the anthorities on television dropped out of a play after the audience applauded him so vigorously that he could not speak. Last weekend, a singer in a Verdi opera was subjected to similar

Januzelski Booed

The sound track of a oewsreel in the Moscow Movie Theater, playing to an audience of mostly students, mentioned Gen. Wojciech Jaruzelski, Poland's military leader, and was drowned out by boos and jeers. Last month, there was a perplex-

ing two-paragraph news item about the small town of Swidnik, just outside Lublin in the south-cast. It said that the provincial administrator, Tadeusz Wilk, issued

oew regulations restoring some "martial law rigors." The curiew in Swidnik was extended, to begin at 7 p.m. All tele-phone and telex communications side world were cut. Private car traffic was banned, along with sports, and cultural events and school classes beginning after 6

p.m. No explanation was given. Now, weeks later, some news of what happened in Swidnik has reached the capital. It seems that the town was engaged in what may be the first citizens' boycott of news.

"Every evening precisely at 7:30, people just left their houses and began walking up and down the streets," said a source. "The protest snowballed. After a couple of days it seemed that everyone in town was out there.

"People just walked their dogs, met each other, exchanged gossip. Some people put their TV sets in the window with the screen facing out so that everyone would know they weren't watching it."

The "walking protest," as it is called, had spread at last report to Lublin's main thoroughfare, Krakowskie Przedmiescie, And an un-derground publication in the northern city of Bialystok has called for a similar action there. "For your physical health, we pro-pose we all meet on evening walks," it said. "Pass it on to your neighbors and work mates. Remember, every day from 7:30 to 8

"If the news cootinues the way it has been, we may become the healthiest nation of walkers in Eu-rope," a Warsaw schoolteacher joked.

**Phone Warning** 

tored."

The power of the authorities to regulate lives is continually emphasized, in big ways and small. ceded by a singsong recording that says, "Rozmowa Kontrolowana" — "Conversation being moni-

There are still about 3,600 person loterned and those who are released often voice amazement at the demoralization they find outside. "I tell you, it was better in jail," said a lathe operator in Wro-claw. "We're not allowed to walk from one part of the factory to another."

In some nursery schools, according to teachers, the police have asked ehildren to turn in parents who are doing a lot of typing -the main method for reproducing clandestine literature.

Some are beginning to think that the graffiti scrawled upon the walls — "The winter is yours but the spring will be ours," a message of warning to the authorities — is perhaps a bit premature oow that spring is at hand.

# Glemp Says

From Agency Disputches
WARSAW — Poland's Roman Catholie primate, Archbishop Jozef Glemp, has said in public for the first time that Pope John Paul's second visit to his homeland,

For some time, church sources have suggested that the pontiff would not visit Poland unless martial law, imposed in December, was lifted. Archbishop Glemp told a con-

pone its date," he added.

The archbishop had earlier hinted obliquely that the visit might be postponed when he said that the 600th anniversary of the Shrine of the Black Madonna at Czestochows, the official occasion for the

A precedent for such an extension was set during the pope's visit to Poland in 1979. The Communist authorities refused to let him come for a religious anniversary set for May, so the church moved the celebration to June.

## Schmidt Links Setback In Vote to Party Image

From Agency Dispatches

BONN — West German Chancellor Helmut Schmidt acknowledged Monday that the troubled image of his Social Democratic Party was to blame for a major set-

back in state elections in Lower The Social Democrats, dogged by internal disputes over ecocomic and nuclear arms policy, made their worst local showing in 27 years Sunday in the first of four state elections this year that to-gether could tip the balance of

"I must stress that the external image of Social Democracy played an important role in my party's poor showing in the Lower Saxony state parliament elections," Mr. Schmidt told the newspaper Bild

Zeitung
The chancellor said the decline in local support for his party was part of a general phenomenon, but he predicted that the Social Democrats would retain power in his home area of Hamburg in the next state elections on June 6

Christian Democratic Majority The conservative Christian Democrats, who formed the previous government in Lower Saxony

but are in opposition in Bonn, gained 2 percent of the vote over the last election to emerge with an absolute majority of 50.7 percent. Official provisional results gave the Social Democrats 36.5 percent of the vote, a decline of 5.7 percent from the Lower Saxony election of 1978. The environmentalist party.

the Greens, won 6.5 percent and the Free Democrats 5.9 percent. The Christian Democrats will have 87 seats in Lower Saxony's Landing, or state parliament, the Social Democrats 63, the Greens 11 and the liberal Free Democrats 10 seats.

Social Democratie losses mirrored setbacks already suffered by Mr. Schmidt's party earlier this month io local council elections in neighboring Schleswig-Holstein

Minority Courted

Meanwhile, Christian Democrats and the Social Democrats Monday began courting the Free Democrats.
The ehairman of the Social

Democratic Party, Willy Brandt, warned that the emergence of the Greens would only help conservative forces come to power in West Germany. The chairman of the Christian Democratic Party, Helmut Kohl,

said the Lower Saxony result must prompt Free Democrats to consider changing their coalition alle-"The Free Democrats should realize that at the side of the Social

Democrats they will be pulled along in that party's downward whirlpool," he said. The Greens, a radical ecology party that takes leftist positions on many issues, took votes from the Social Democrats and won seats in the state legislature for the first time. They made a stronger showing than the Free Democratic Par-

ty, which is the junior partner in the coalition that controls the federal parliament in Bonn. There has been speculation for weeks that the Free Democratic leader, Hans-Dietrich Genscher. might pull out of the alliance with

Mr. Schmidt and throw his party's support behind the conservatives.

## Leftists Weigh Defeat; Franc Hits New Low

PARIS — The leftist government officially acknowledged Monday a defeat in local elections and pres-Interior Mioister Gaston
Defferre said that compared with
1976—the last time local elections were held in the districts at stake in the March 14 and March 21 balloting — the right-center opposi-tion groups won 268 and the left lost 101 seats.

The figures were based on re-sults from 1,933 voting districts out of 2,029 up for re-election. Results from the remaining districts in overseas territories were due later Monday.

Mitter and Reappraisal

President François Mitterrand met for an hour Monday with Prime Minister Pierre Manroy to reappraise the political situation.

Mr. Mauroy made oo comment
afterward but aides said the government would neither slow down or speed up its planned changes in French society.

Meantime, the franc fell to

record lows against the dollar and Deutsche mark. The election setbacks have undermined confidence in Mr. Mitterrand's ruling coalition and its sweeping economic and social re-forms, traders in Paris said.

As a result, the dollar ended

Monday at a record high of 6.24

france, from the previous record of

6.21 on Friday. Dealers said that

bittle, if any, Bank of France intervention was detected. The Deutsche mark was at an all-time peak 2.61 francs, close to the mandatory intervention point of 2.62 frames within the European Monetary System.

In New York, the frame weak-ened to 6.26 per dollar from an opening 6.23 and Friday's close at

On the Bourse, prices lost ground across a broad front in moderately active trading. Disappointment The poor electoral showing, traders said, could reduce the gov-

ernment's margin of maneuver in attacking fundamental problems affecting the French economy unemployment and inflation.

Socialist and Communist leaders did not try to conceal their disappointment with the election re-

The Socialists, who dominate

the ruling coalition, remained the country's main political faction. They won 508 seats, a loss of five from 1976.

The Communists, who have been losing strength steadily in recent years, were the biggest losers. They won 197 seats, a loss of 44. The small Radical Left coalition

ing, returning 61 seats, a net loss of Major Gains The main opposition group, the Gaullist Rally for the Republic, made major gains — 145 seats, from 187 to 332 seats. Its opposition partners, the Union for French Democracy, saw its representation rise from 396 to 466

group also received a serious beat-

seats, a gain of 70. In mainland France, the con-servatives took control of 58 of 96 departmental assemblies called general councils, a gain of seven, while the oumber that the government coalition of Socialists and Communists held declined from 44

## Centuries-Old Forces Continue to Drive Combatants in Gulf

By Edward Cody Washington Post Service

BAGHDAD - A \$22-million monument rising from the flat plains beside the Tigris River celebrates the battle of Qadissiya, the Arab triumph in 635 A.D. that broke the back of Persian rule over Meso-

For the families that drive 30 miles (48 kilometers) southeast from Baghdad to see a panoramic painting of the battle and picnie in the adjoining park, the mon-ment has more than historical interest. Iraq's Arabs are again locked in a struggle with Persia, more than 13 centuries later, and the new war is called "Saddam's Qadissiya" to suggest that President Saddam Hussein is headed for an equally epochal victory over Iraq's enemies in what is to-day the Islamic Republic of Iran.

### Historical Challenge

For Americans used to viewing the Middle East in terms of the Arab-Israeli dispute over land, it is difficult to look beyoud the immediate causes for Iraq's 18month-old conflict with Iran, such as sovcreignty over the Shatt-al-Arab waterway linking the Tigris and Euphrates to the Gulf. But a visit to Iraq leaves a strong impression that other forces are also con-

tributing to the struggle and may indeed

Judging from Iraqi comments and public declarations, as well as observations of diplomats in Baghdad, these forces incinde traditional enmity between Persians and Arabs, the historical challenge of Shiite Islam to Sunnite Moslem rule and re-

lation estimated at 3 million.

war is not really about the Shatt-al-Arab," he said. "It is about the Islamic revolu-

Iraqi officials emphasized that the three-year-old Iranian revolution - described by one Iraqi as a "sickness" that cannot be allowed to spread - threatens the entire Gulf area. They proclaim their war is being fought on behalf of the whole Arab nation, a view recently endorsed by King Hussein of Jordan, Iraq's closest ally. He said that Baghdad had become "the front line" against subversive designs of Iranian mullahs.

Iraq is particularly vulnerable to such subversion. It has a long border with fran, a war front since September, 1980. In addition, its Shiite Moslem majority, estimated at about 55 percent of the country's 14 million inhabitants, is ruled by an authoritarian government led by Sumutes.

Under Mr. Hussein's Ba'athists, fraq practices a tolerant shade of Islam. Alcoholic beverages are freely available; women drive unveiled down Baghdad streets as aggressively as men, and female students in European dresses at Al Mansuriva University mix easily with their male classmates.

Such beeries are anathema to the Iranian Islam preached by Ayatollah Ruhollah

Khomeini, whose mullahs have gone so far as to segregate the ski slopes north of Tehran. The Iranian style appeal for adherence to Koranic strictures is among the drawing points for the main Iraqi Shiite

opposition group. The Call, with offices in Tehran and, Iraqi officials say, money and weapons from Iran to sur up subversion in Iraqi towns.

Iranian Shiites Expelled

Although the influence of The Call is difficult to assess in fraq's closed system, fraqi officials have taken the danger seriously enough to expel thousands of Shiites of Iranian origin in arrests that began before the war broke out and continue per-iodically even now. The execution of one of Iraq's leading Shiite muliahs and a ruthless crackdown on Call cells have resulted in its disbanding here, at least for the present, according to diplomats in

The role of Shiite Islam as a vehicle for religious and political protest is not without precedent. In the late 7th century, recently converted Moslems called Mawalis turned to Shiism to express social and economic grievance against the established order of the Umayyad Dynasty centered Aside from religious differences, Persians and Arabs have been ethnic rivals for centuries. In this spirit, Iraqi newspapers and television announcers rarely use the word "Iran" in war communion hattle reports. Instead, they almost always say "the racist Persian enemy."

Mr. Hussein underlined the historic enmity in a recent speech so troops departing for the front, charging fran with "raviving the negative aspects of history."

"Who else rained Babylon?" he asked Who else cooperated with the lews throughout history? They have cooperated with the Jews to destroy Babylon and cooperated with them to harm frag and the Arab nation. Today they cooperate with the Jews. While Tehran is launching ag-gression against the land of Iraq, the Zionist entity launches its raids against Iraq and sends arms, expertise and equipment to Tehran to maintain aggression against

Historically, Mr. Hussein apparently was referring to the conquest of Babylon, 80 miles south of Baghdad, by the Persian Emperor Cyrns the Great, who freed the Jews in Babylon and permitted their first return to the land of Israel in the 6th cen-

## New Telephone Book: Iraqi Envoy Clues to Lebanon War

By Marvine Howe New York Times Service

BEIRUT - For the first time since 1973, a Lebanese telephone book is being published. Its 300,000 names provide some spe-cific clues on what has happened to people as a result of the Lebanese civil war of 1975-76 and the

subsequent violence. "What started out as a simple commercial venture has turned into complicated sociological re-search that extends beyond our present means and aims," said Lucien George, head of the Arab World File documentation center, which has undertaken the project. The book is scheduled to be issued in May in French and Arabic edi-

Most of the telephones, about 220,000 of them, are still in greater Beirut. But Junieh, which before the war was a small seaside resort with 4,000 telephones, has grown

### Student Slain On West Bank

(Continued from Page f) an attempt to restore calm, and the three towns were paralyzed by gen-eral strikes. Virtually every store in East Jerusalem was closed, despite the arrest of scores of shopkeepers who refused to reopen their busi-

nesses. Israeli Defense Minister Ariel Sharon toured the West Bank, inspecting Ramallah and Al-Birch and then meeting in Hebron with Mustafa Dudein, head of one of the village leagues that have been encouraged by the military government to compete with pro-PLO the West Bank

Palestinian sources in Nablus said Israeli soldiers who were stoned by students from a secondary school herded about 50 stu-dents into classrooms and exploded tear-gas cannisters while refusing to allow the students to leave.

The sources charged that when a doctor arrived, be was prevented from entering the building and that some students who were being driven to a bospital in private cars were intercepted by security forces and taken to military government

headquarters for questioning.

The Israeli Army spokesman said, bowever, that as the soldiers tried to force their way into the barricaded school, they were pelt-ed with rocks, and that they fired tear gas only in the courtyard to provide a cover for entering the building.

### White House Concerned

WASHINGTON (UPI) - Deputy White House press secretary arry M. Speakes expressed concom Monday over the violence on the West Bank and said, "We deeply regret the loss of life over the weekend. We would like to reemphasize the need to move ahead under the Camp David process and deal with the autonomy is-

Annexing West Bank Discussed

TEL AVIV (AP) - Foreign Minister Yitzhak Shamir on Monday backed a statement by Israel's imbassador to the United States that if talks on West Bank autonomy become hopelessly stalled, Israel may annex the territory.

## Assassinated In Lebanon into the de facto capital of the Christian section of East Beirut

United Press International
BEIRUT — Unidentified gunmen assessinated a high-ranking official of the Iraqi Embassy Mon-

day, police officials said.

The armed men sprayed the ear of Ali Hajem Sultan, the Iraqi third secretary, as he left the embassy in predominantly Christian east Beirut, killing him immediate-ly, the officials said.

Units of the Lebanese regular army, which has a major barracks near the embassy, sealed off nearby roads.

The Iraqis moved to the eastern half of Beirut little more than a month ago after their embassy building in west Beirut was de-stroyed by a bomb in mid-December. It was the first embassy to move to east Beirut because of terrorism in the western section.

In recent weeks diplomats from Kuwait, Jordan and Bahrain have left Lebanon, reportedly because of threats against them. The bomb attack on the Iraqi

Embassy was widely interpreted as a reflection of the Iran-Iraq war. Gunmen of Iranian and Iraqi sympathies regularly fight in Beirut and southern Lebanon.

Earlier, Lebanese security forces moved into the northern coastal town of Tripoli to enforce a ceasefire between local militias and Syrian peacekeeping forces.

Lebanese government sources said a decision to send the Lebanese security forces to the city was taken in coordination with local militia and Syrian army officers. State-run Beirut radio said 550 policemen, supported by armored cars, took up positions around the city. The security forces also set up checkpoints and searched cars, the

The Syrian forces entered Lebanon in 1976 to separate battling local militias that government troops could no longer control, but fighting has broken out this month between militiamen in Tripoli and Syrian troops. A cease-fire was proclaimed after a week of fight-

### U.K. Says Envoy tion of a new book required the Broke Secrecy Law

LONDON - A 29-year-old British diplomat has been charged with breaking state secrecy laws by passing classified information to an Egyptian diplomat while she was assigned to Tel Aviv.

Rhona Janet McIntyre Ritchie was charged in magistrate's court £10,000 (\$18,000) bail until April 27, court officials said Friday.

The hearing was shrouded in secrecy but Miss Ritchie was charged with passing classified in-formation last November to Refaat el-Ansary, "a person to whom she was not authorized to commu-nicate." She pleaded not guilty, court officials said. British news reports said Miss Richie had been promoted to first secretary, the embassy's third ranking official, last month

Munich Bookstore Set Afire The Associated Press

MUNICH — A Yugoslav book-store was set aftre bere early Monday, the police said. It was the latest in a series of attacks in Western Europe on Yugoslav interests. The police said they had no suspects.

## WORLD NEWS BRIEFS

The Associated Press WASHINGTON — Agriculture Secretary John R. Block said Monday that the United States can punish the Soviet Union by selling it corn and

**Block Says Grain Sales Hurt Russia** 

wheat, forcing Moscow to spend its scarce foreign currency.

"The Soviet Union takes in about \$20 billion a year in hard foreign currency," Mr. Block said. "If they are obligated to spend 25 or 30 percent of that... on food which they eat up almost immediately...it's somewhat to our advantage to see them transfer those hard-earned resources to the United States.... We can burt them because all they do is

Mr. Block also sald, after joining agriculture-state senators in a meeting with President Reagan, that the United States "needs to establish itself as a reliable supplier of agricultural products around the world. We have been victimized ... with a series of embargoes and trade sanctions."

### **EEC Official Denies Maligning Britain**

United Press Internation BRUSSELS — Gaston Thorn, president of the European Economic Community's Executive Commission, denied Monday that he had accused Britain of national selfishness and budgetary greed in an interview with a West German radio station.

A statement from Mr. Thorn's office said the alleged statements were based on a press handout distributed by the German Suedwestfunk that severely distorted the interview. The row came on the eve of a discussion March 29-30 in Brussels by EEC foreign ministers on farm and budget policy reforms, aimed at easing Britain's budget contribution.

Britain, which claimed it was the second largest contributor to the EEC budget despite being one of the poorer member countries, received a sizeable cut in its payments under an temporary 1980 agreement ending this year, It expects its net contribution without a new agreement to be more than \$1 billion this year, and is demanding a definitive settle-

### Japan Vows Effort to Balance Trade

United Press Interne WASHINGTON - Foreign Minister Yoshio Sakurauchi says he has told President Reagan that Japan will make a greater effort to resolve its trade imbalance with the United States.

"Japan and the United States enjoy a very basic friendship," Mr. Sakuranchi told reporters after a meeting Monday with the president. Upon this I have mentioned to the president we will make more efforts to solve the trade imbalance."

Mr. Sakurauchi, on his first trip to the United States as foreign minister, discussed several issues with U.S. leaders, including a \$18-billion trade deficit from 1981 that has caused renewed demands that Japan open its markets to U.S. products.

## Argentines Occupy British Island

LONDON - An Argentine government ship put ashore on a Britishcontrolled island in the South Atlantic and a landing party raised the

Argentine flag, the British Foreign Office said Monday The incident occurred Friday on South Georgia Island, a dependency of the Falkland Islands, which are claimed by Argentina, a spokesman said. He said the British Antarctic survey commander on South Georgia reported that an Argentine party established a camp on the island, which has a population of about 20. It was not known whether the party was

The party landed without clearance from British authorities, the spokesman said. He said London had sought clarification from Argentine officials. In Buenos Aires, a government spokesman promised a detailed Foreign Ministry report on the incident but declined to comment further.

### IRA Develops New Radio Firebomb

DUBLIN — Irish police said Monday they had seized about 50 fire-bombs which can be set off by radio, a new device developed by the IRA for use against British forces in Northern Ireland. The weapons were seized over the weekend in raids by the police on

ouses in Galway. Three men were held for questioning. The devices are the same as the firebombs made of explosives packed into cassettes that have been used for years by the IRA in Northern Ireland. The difference is their detonation by radio instead of timers. Several are being sent to Northern Ireland to be examined by British

### Greece Presents Demands to EEC

BRUSSELS — Greece's Socialist government presented demands Monday for a better deal from the European Economic Community, but it made no mention of earlier threats to pull out of the 10-nation organi-

The memorandum, presented at a meeting of Common Market officials, calls for Greece to be allowed to give state aid to fledgling industries and protect them from more efficient competitors in other EEC countries. More than 85 percent of Greece's manufacturing companies employ less than five people.

It memorandum also proposed a special deal for Greek farmers. More specific demands are to be presented in coming months. Diplomatic sources said analysis of the benefits of membership had apparently softened the anti-EEC stance of the Socialists since they came to power in

personal bodyguards. The Britons are working here on a private bans but the British government is reported to have given tacit approval to the contract, which began about

wo months ago.

The Iraqi leadership was imressed by the assassination of President Anwar Sadat of Egypt diplomats here said. The British protection training is believed to have been arranged as a result of fours sharpened by Sadat's murder in full view of a retinue of body-

guards trained with U.S. help. Although Iraqi comments indi-cated general dissatisfaction with U.S. support of Israel, there were no specific references in several conversations with Iraqi officials to the question of U.S. export controls over the equipment. In any case, indignation seems just as high over Syrian support for the

In Iraqi eyes, Israeli supplies to Iran fit into a pattern of hostility, symbolized by Israel's bombing of an Iraqi nuclear research reactor in June. Previous Iranian-Israeli cooperation, they recall, included coordination between Mossad, the Israeli external intelligence agency, and Savak, the late shah's secret police, and the shah's extensive sales of franian oil to largel.

## Glemp Sees **Delay of Trip**

(Continued from Page 1) terned Polish labor leader. Lech

The embassy's third socretary, Ted Slusarczyk, was at the ceremony, and Walesa family members "were aware of his presence," an embassy spokesman said.

"We attend a lot of church services, especially when an event of considerable importance is going to occur," the spokesman said.

### Write-Off of Debt Soon

WASHINGTON (AP) — Louis to Poland must be written off to a "high degree." Gerhard Stoltenberg, prime minister of the West German state of Schleswig-Holstein, said Monday.

Mr. Stoltenberg is spokesman on economic matters for West Germany's Christian Democratic Party, which moved closer to replacing Chancellor Helmut Schmidt's government on a national basis by a victory in the Lower Saxony state election on Sunday. Mr. Stoltenberg would be in line for an important post in a govern-

ment led by Christian Democrats. "I can't see any chance under existing circumstances for the Communist government to pay its debts," Mr. Stoltenberg said. Banks hesitate to admit that the money has been lost because they would be "in a mess" if they had to write off the entire sum on their balance sheets, he said. Debts are estimated at \$27 billion.

accused of treason in letters to

ticket to the Communist country

The issue came to a climax at-

ter the bishop received a grant of \$10,000 last month from the Ob-lates of Mary Immaculate, a

Catholic order, to be used to of-

fer job counseling and temporary financial aid to Pautex workers who quit. The bishop says about six have done so.

Job Counseling

He assigned the \$10,000 to Catholic Family Service, which was to do the counseling and

was to do the counseling and dispense the aid. The public outcry was renewed. About 10 percent of the 1,400 Pantex workers who had been having United Way contributions deducted from their paychecks canceled their donarious. Mr. Brown's committee was formed.

The United Way leaders asked the bishop if he would withdraw the \$10,000 from the

## The Bishop and the Bomb: A Moral Dilemma for Texans

By William K. Stevens

New York Times Service
AMARILLO, Texas — Last spring a worker at the Pantex plant outside Amarillo, where all U.S. ouclear warheads are assembled made an appointment to see Bishop Leroy T. Matthiesen of the Amarillo Diocese. The man, who was in his late 50s and had worked at Pantex for 17 years, said he had begun to worry, as a faithful Roman Catholic, that working at the plant might be morally

Little did the 60-year-old bishop suspect that from this beginning he would be drawn into a
maelstrom of contention that
would unleash angry passions in
this oil and cartle town of
150,000 in the Texas panhandle.
Nor could J.C. Brown, a
banker and member of the banker and member of the board of directors of the Amaril-

lo United Way, a clearinghouse for contributions to charitable organizations, have foreseen the moral dilemma that would con-front him in trying to help re-solve the conflict.

Two weeks ago, United Way voted to withdraw financial support for Catholic Family Service, a social service organization under Bishop Matthiesen's control. At the heart of the decision was the hishop's ardent stand against ouclear weapons, a position gaining adherents around the

### Aid to Catholic Agency Cut After Anti-Nuclear Stand

The bishop insisted that the service agency be allowed to counsel and aid workers who, for reasons of conscience, want-ed to quit their jobs at Pantex.

### Protestant, Patriotic

Amarillo is an overwhelming-ly Protestant city of old-fash-ioned patriotism, and the Pantex plant, with 2,400 workers, is a cornerstone of the local econo-my. So the United Way leaders, threatened with what they be-lieved to be a huse and overlieved to be a huge and poten-tially crippling withdrawal of pledges by angered contributors, cut off this year's \$61,000 grant

To those on the bishop's side, it is a clear case of economic bullying. Some oo the other side say that, while the bishop was enri-tled to his opinions, he is now paying the price for unpatriotic, if oot subversive, behavior. United Way has been caught in the

The bishop sees effective control of ouclear weapons as the central issue of this age. Yet in Amarillo, he said, "it's oot really permissible to raise quesoons about the role of Pantex and the

In receot years United Ways nationwide have generally been crincized as playing it safe by

shunning controversial organiza-tions. Mr. Brown, who headed a committee appointed by the Amarillo United Way board to recommend what to do in the case of the bishop and the bomb, said this was a question of choosing between two unattrac-tive courses: Either United Way would cut off its grant to Catholic Family Service, or contributions estimated at \$200,000 to \$500,000 would be withdrawn. That would penalize other agen-

Bishop Matthiesen is oo leftist radical. He advised the Pantex worker last year to stay on the job, since he was nearing retirement and had many dependents. But the man's concern, the bish-op said, opened his eyes to the dangers posed by the ouclear

### Neutron Bomb Production

Last Angust the Reagan ad-ministration said it would go ahead with production of the neutron bomb, which would be assembled at Pantex. With that, Bishop Matthiesen joined those favoring a global freeze in the production of ouclear weapons.

agency. He agreed, bot then they asked that the agency refrain from offering job counseling to Pantex workers. This the agency refused to do, as it had always But he went further. In a public statement, he called on Pantex workers to search their conprovided this service to anyone

So, oo March 11, the United Way board voted unanimously to cut off the money, effective April 1. The money parily sup-ported services that deal with child abuse, troubled youths and The Amarillo Globe-News. He unwed mothers. None went for was invited to accept a one-way job counseling. But Mr. Brown said he thought such distinctions were lost on angry contributors.

Steve Schroeder, 27, a coun-selor employed by Catholic Family Service and a longtime resident of Amarillo, said: "I think a lot of Amarillo people have some pretty serious unre-solved questions about what they're doing or what their friends and relatives are doing at Pantex, and they don't want to face those questions. It's painful. It involves their livelihood."

A second reason for the outcry, he said, might be that "we live in a very conservative place, and that's an understatement. There's a tendency here for people to believe that national security means building more weapons. If someone questions

this, it's threatening."

Catholic Family Service, whose hudget this year is \$826,000, plans to make up the money through fund raising, its leaders say. But the sourness

lingers.
"It's unfortunate that it happened," Mr. Brown said. "Essentially, it was a question of trying to balance two goods against each other."

"When I own something so beautiful", she remarked, "I want the world to see it".

## Reagan Is Said to Approve Modernization of Warheads

By Judith Miller

New York Times Service WASHINGTON - President Reagan has endorsed a plan that alls for production during the next five years of about 380 more inclear warheads than the level clanned by the Carter administraion in its last year in office, ac-ording to administration and con-

gressional officials. Officials said that although the ncrease over the Carter plan was rather small, there would still be a sharp surge in the rate of producsoo of nuclear warheads — the argest in 20 years — mostly to replace aging weapons.

In addition, sources familiar

with the administration's plans said that although Mr. Reagan's total production numbers were similar to those endorsed by President Jimmy Carter in a memoran-ium signed in October, 1980, the composition of the weapons stock-rile was very different.

It is generally believed that the U.S. stockpile of nuclear warheads for both strategic and tactical weapons totals about 25,000.

government's more lightly held secrets. But private military analysts, using the projected weapons plans of the Defense Department, have estimated that 17,000 warheads would have to be produced during the next five to eight years to approve the province of the province to arm the new weapons sought by the Carter and Reagan administra-

These new weapons include the MX intercontinental missile, a new submarine-launched Trident mis-sile and hundreds of Cruise missiles. One government official described the estimate of 17,000 warheads as "within the ballpark."

Although thousands of new warheads are scheduled to be produced, there would be no significant increase in the overall size of the nuclear arsenal. Many of the existing warheads would be disassembled as obsolete and their nuclear materials used to produce oew warheads.
The relatively insignificant nu-

merical change from the Carter to Reagan plans for increases in ouweapons totals about 25,000.

The exact number of new warin the exact number of new warin

increases will result in an almost complete turnover in the weapons stockpile during the next decade.

they added.
On March 5, according to a
White House aide, Mr. Reagan made these and other decisions when he signed a planning document outlining a warhead produc-non schedule for the next five years and projecting weapons and materials required for the next 15

The new planning document signed by Mr. Reagan authorized a large increase in plutonium and tritium, which is occided for ocutron bombs and an anri-ballistic missile system, should it be devel-

Congressional and administratico military specialists familiar with the planning document said Mr. Reagan's plan called for an increase in long-range, or strategic, systems over that contemplated by Mr. Carter and a decrease in the proportion of short-range, or tactical weapons, in the inventory.

Several thousand tactical weap-ons are old and scheduled to be

Carter, for example, intended to deploy 200 MX missiles, whereas the administration's program prowithout being replaced. Among those are such tactical weapons as ouclear demolition mines, which were manufactured in the 1950s; vides for 100 during the next five

Honest John short-range surface-to-surface missiles, and probably Nike-Hercules surface-to-air misyears.

Even with the plans to use plutonium from older weapons, plutonium stocks will have to be in-creased, officials said. Many weapsiles, according to Defense Department and congressional officials.

Mr. Reagan's plan, like Mr.

Carter's, calls for an increase in the ons scheduled for retirement contain highly enriched uranium, not oumber of strategic systems, but plutonium. ## U.S. Unions Taking Heed As Jobs. Factories Move to Other Countries

By William Serrin

New York Times Service NEW YORK — As contract talks between the United Auto Workers and General Motors Corp. and the Ford Motor Co. nave demonstrated, U.S. labor amions have hit difficult times and the recession is oot the only ause. For the unions, there was mother, possibly further-ranging actor implicit in the negotiations: the internationalization of work and the movement of jobs to other countries.

: In some older manufacturing industries, that movement has been going oo for a long time. The In-ternational Ladies Garmeot Workers Union, for example, says that its membership has fallen by about a third since the late 1960s, and that much of this decline can se linked to the export of cutting and sewing jobs.

With the introduction of oew echnologies, the export of work is ncreasingly affecting the most so-histicated sectors, which are ooked to as the foundation of U.S. economic health as the nation noves away from a manufacturing

For example, information, one of the most important products, an be reduced to digital form, transferred out of the country by satellite, processed by workers at reduced wage rates, then beamed back to the United States -- which means that data processing, oews-paper printing and many kinds of cavice work can be performed in

### Strike-Breaking Device

"It's really in the services that we may have a major threat in addition to the things we have encountered in manufacturing," said Dennis Chamot, assistant director of the professional employee department of the American Federaon of Labor and Congress of Injustrial Organizations.

Aside from lost jobs, such portavility of work can become, in ef-ect, a strike-breaking device. "The preatest weapon in the hands of apital when capital sits across the able from labor is its mobility," said the leftist writer and economic Observer Michael Harrington. He States were found near the scene.

ooted for instance that when unions began making inroads in Puerto Rico after companies had moved there, the companies simply moved oo to other countries.

At talks between the autoworkers and GM, Roger B. Smith, the company chairman, was candid about GM's intention to reduce labor costs either hy going to low-wage companies in the United States or to other countries. Officials of Ford, which has concluded an agreement with the UAW to re-duce labor costs, also made it clear that, unless they received concessions, perhaps 10,000 to 20,000 jobs would be sent abroad.

Harley Shaiken, a work and technology specialist at the Massachusetts Institute of Technology, said the power to centralize management and decentralize production is "a powerful lever to undermine wages and working condi-Mr. Shaiken believes such work

transfers will increase in the years ahead. A U.S. Transportation Department study says, for example, that within a few years more than 2.5 million automobile engines a year will be imported into the United States by U.S. companies. Moreover, Mr. Shaiken said, the

## **A Round for Civilization**

No one can say what political sunspots af- lence, the defectors shatter the myth of the fect the climate for terrorism, but for the moment it has turned inclement. The news is of failed kidnappings, foiled hijackings and multiple arrests as defectors betray comrades. For a change, the terrorists are in angry disarray, not the democratic governments they would demoralize and destroy.

the state of the s

In Britain, 15 IRA guerrillas were rounded up the other day after the defection of a highranking leader. The arrests follow the seizure of IRA arms dumps and bomb factories at six locations and the capture of about 100 suspected guerrillas, and the arrest of five alleged IRA gunrunners by U.S. authorities as

they tried to cross the border from Canada. In Italy, penitent ex-members of the Red Brigades have testified in the case of the kidnapping of Brig. Gen. James Dozier. They include the young Italian who masterminded the abduction. By breaking the code of siRed Brigades' invincible discipline.

Although there are exceptions, such as the continuing slaughter of Turkish officials by Armenian gunmen, terrorism in Spain, France and West Germany appears to have ebbed. Thwarted hijackings now seem more common than successful ones. Besides disciplined police work and better security measures, all this surely reflects a shift in popular attitudes. It is no longer fashionable to idealize and indulge violence-prone radicals.

Democracies have not been goaded into tearing up their laws to unrayel the terror network. Charges of police torture, as in Italy and Northern Ireland, have been the focus for aroused debate and inquiry. For the most part, the forces of civilization are managing to keep savagery at bay without succumbing to it themselves. That is a point to celebrate. THE NEW YORK TIMES.

## Time to Build on SALT-2

As spring arrives, the talk is of freeze. Leonid Brezhnev proposes a nuclear freeze for all Europe. Senators Kennedy and Hatfield, leading 150 members of Congress, would have the freeze cover the world. They are all responding to the millions of people in Europe and the United States who wonder why the competition to build nuclear arms, threatening life everywhere, cannot simply stop. The freeze is a simplistic diplomatic formula to rally or appease that sentiment. But it is neither simple nor innocent.

The Soviet freeze is cleverly designed to manipulate opinion in West Germany. Chancellor Schmidt's critics on the left hope to commit his Social Democratic party next month to a one-sided nuclear arms "moratorium." It would let stand the Soviet missiles aimed at Western Europe but suspend the plan to deploy comparable American weapons in Europe for as long as negotiations to limit them can be made to drag on in Geneva. This would freeze a 300-to-0 Soviet advantage in modern medium-range missiles.

The Kennedy-Hatfield plan is more sophisticated but no less flawed. It calls for two stages of negotiation. The first would look toward a verifiable halt to the testing, producing and deploying of all nuclear weapons. Special emphasis would be given to the "destabilizing" category of weapons, presumably the big multi-warhead Soviet missiles that might take out American land missiles in a first strike. The second stage of talks would aim for verifiable reductions of arsenals.

The main trouble with this approach is the fear for the vulnerability of American landbased missiles. A freeze would perpetuate the vulnerability by preventing deployment of more secure weapons. There is also no way to verify a ban on missile production without the intrusive on-site inspection that Moscow has always rejected. Nor is there any known way to locate concealed stocks of warheads;

that is why two decades of negotiations have focused on limiting delivery vehicles.

The proper antidote to an unworkable freeze is the completed but ignored SALT-2 treaty, which the Reagan administration foolishly dismissed as "fatally flawed." It would require the Russians to dismantle 10 percent of their intercontinental missiles and bombers, to a total of 2,250, yet permit a U.S. increase to that number — including everything the administration proposes to build. A freeze would leave America with at least 20 percent fewer deployed delivery systems than the Soviet Union.

A freeze would also prevent modernization of U.S. weapons. It would deprive the Russians of only one new long-range missile, while blocking nine new U.S. delivery systems permitted by SALT. It is doubtful America really needs them all. But a freeze would throw away an already negotiated, verifiable and more favorable limit.

Why do so many prominent Americans agitate for a freeze instead of the treaty? Because the Reagan administration has failed to demonstrate that it will arm wisely and negotiate effectively. It is being subjected to public pressures that it brought on itself. Reagan had hoped to delay arms control talks until he could alter the military balance and threaten the Soviet Union with the costs of unrestrained competition. But this delay is backfiring. Economic difficulties are eroding the American consensus for defense spending. Discord among the allies and political

pressures on them are growing.

By ignoring instead of building on SALT-2, and still contending that arms control should be "linked" to other issues, the administration has made the classic mistake of allowing negotiation itself to appear as a concession. The longer it waits, the more the Kremlin will expect to gain - in the streets.

THE NEW YORK TIMES.

## Jobs or Wages in Idaho?

Which should come first among a labor union's priorities — jobs or wages? A majority of workers at a mining and smelting plant in Kellogg, Idaho, thought that saving their jobs was more important. They voted to accept a 25-percent cut in pay and other benefit reductions demanded by a group of investors as the condition for reopening the recently closed plant. When steelworkers' union leaders failed to ratify the agreement and the jobs vanished, many of the workers felt betrayed.

The anger of the laid-off workers is easy to understand. But so is the position of the un-ion leaders. The investors' offered a no-negotiation deal with a one-week deadline for acceptance. The local union members' vote to accept the proposal caught union leaders by surprise on the eve of the offer's expiration. It would not be surprising if national union leaders were loath to accept a stiff take-itor-leave-it deal that might have set a precedent for major steelworkers' negotiations elsewhere in progress.

One of the major reasons why nationwide unions were formed, after all, was to protect workers in one-industry towns like Kellogg from being browbeaten by local employers into accepting bad deals. In the decades of prosperity after World War II, strong unions were able to deliver a steadily rising standard of living to their members by focusing on wages and benefits first and employment repercussions second, if at all. Concessions were sometimes agreed to when plant closings were at risk, but these were usually minor and confined to special situations and frequently, as union leaders remember, the plants closed anyway.

When an industry is thriving, propping np-marginal producers is no more in the longrun interest of labor than of management. But now, with many basic industries under severe stress, both labor and management need to reassess their positions. In the last few months, major unions have agreed to 'give-backs" of wages and benefits affecting hundreds of thousands of workers. An important feature of most of these deals, however, was a recognition by management that concessions - including more participation for workers in management decisions - were called for on their side of the table as well.

Reviving America's industrial strength will take more than bringing the compensation of over-favored workers back into line with the prevailing norms in international industry. Improving productivity may depend far more on better management than on speeding up or streamlining current methods of operation. In addition, better management may require abandoning, or at least modifying, the adversarial tradition in America's

labor-management relations. THE WASHINGTON POST.

### Other Opinion

Ayatollahs for Palestine?

Palestinian resistance has begun to take a new form, which may complicate matters as much for the Palestine Liberation Organization as it does for Israel. A fundamentalist movement from the east is not interested in the secular Palestine of the PLO's ambitions but only in the rebirth of Islam within the old mandate confines.

The West has taken the Palestinian argument about the destruction of their homeland, the replacement of their citrus groves by the ugly prefabs and concrete citadels of the Israeli settlements. Will the West be just as sympathetic when the opposition to Israel is in the hands of budding ayatollahs?

- From The Guardian (London).

1907: Battle in Central America

1932: Disarmament Talks Mocked PARIS - The world disarmament parley at Ge-MANAGUA — The forces of Honduras and Salvador, numbering between 5,000 and 10,000, attacked the Nicaraguan positions at Namasiquo, but after three days and two nights of furious

neva has reached the "dead low-water" stage of postwar conferences, declared Frank H. Simonds, American publicist. The conference fighting, the allied troops were completely dedelegates, he said, will end either by adopting feated, leaving hundreds of dead and wounded some meaningless formula to provide all present on the field. Many prisoners were taken and also with a collective alibi, or by fixing the blame for 2,000 rifles and other war material. Many Nicafailure upon other countries. "The disarmament raguans were wounded or killed. In Havana, talk conferences set out to leash the dogs of war, but all that is now possible is to ban the bugs of of war grows every day. Negro leaders threaten war," he declared, adding that an international it if their every demand is not granted, and Conservatives believe it will come the moment the United States stops yielding to the demands of the turbulent element of the Liberal party. conference is a place where statesmen who do not know what to do at home hope to dodge responsibility by meeting abroad.

## Official Terror Is the Latin Custom

NEW YORK -- In the space of two years, nearly 25,000 people have been killed in El Salvador -- not in combat or caught in cross fire, but tortured, mutilated and butch-ered in cold blood. Every night, men and women are dragged from their homes by armed men; every morning, their mutilated corpses turn up in roadside ditches and garbage dumps. In the last 60 days, 400 to 800 villagers have been massacred.

In Guatemala, whole villages of Indians and a wide spectrum of journalists, teachers, social workers, students and doctors have been killed in political violence. Who is killing the people of Central

America, and why? All reputable sources with firsthand knowledge — the Roman Catholic Church, the Red Cross, the UN High Commissioner for Refugees, the Organization of American States' Human Rights Commission, Amnesty International, former U.S. ambassadors tell the same story: A small number of peo-ple are certainly being killed by the rebels. But guerrillas have no vehicles, and the bodies turn up either after motorized "sweeps" by the security forces or after visits by

masked men in vehicles who circulate freely through roadblocks and shoot-first curfews. These atrocities are not just a tragic byproduct of civil war. Nor are they acciden Not understood by the public in the United States, and concealed by the Reagan admin-

By Charles Maechling Jr.

All this is part of a brutal military tradi-tion handed down from the savage Spanish conquistadors to the dictators and generals who have been a plague on the people ever since. Merciless atrocities are inseparable from Latin American warfare; combat casualties tend to be light.

The 30,000 victims of the 1932 peasant uprising in El Salvador were exterminated in

The brutality of military culture in the former Spanish colonies is almost inconceivable by Anglo-Saxon standards.

cold blood. So were the Indian population of Argentina and most of that country's recent "disappearances"; the 300,000 victims of the 1948-61 violence in Colombia; the 1 million dead of the Mexican Revolution of 1910-28; the countless victims of tyrants like Porfirio Díaz of Mexico, Juan Vicente Gómez of Venezuela, Rafael Trujillo of the Dominican

Republic and Nicaragua's Somozas.

As for the rebels who surrender, one looks in vain for prisoner-of-war camps. Most are shot on the spot.

The brutality of military culture in the for-mer Spanish colonies is almost inconceivable by Anglo-Saxon standards, and shows up 2t its worst in El Salvador and Guatemala, Latin America's military academies turn out few gentlemen-officers. Great emphasis is placed on ceremony and punctilio, but discipline is both stack and cruel, and humaneness is regarded as weakness. High rank is often a license for racketeering — witness the drugdealing generals of Bolivia.

In their andless oness for machiness and

In their endless quest for "stability" south of the border, U.S. administrations repeatedturn a blind eye to the rapacity and cruelty

of the Latin American military. Not until 1961, however, was there direct complicity (as opposed to occasional direct interventions) by the U.S. government in aiding domestic repression in Latin America. In that year, under pressure from the Pentagon, the Latin American military role was changed from "hemispheric defense" to "internal security." U.S. assistance programs were retooled to strengthen the hold of the local military forces over their own people. For 20 years, the Pentagon has lavished training and equipment on the Latin American military, both at bases in the United States and at the U.S. Army School of the Americas in the former Panama Canal Zone. Under guise of "civic action" programs, Latin American officers have been encouraged

to moddle in government and civilian affairs. There has been little screening to weed out the drug racketeers and war criminals, and no indoctrination in civilized standards of warfare. Senior officers indistinguishable from the war criminals hanged at Nuremberg after World War II have passed through the Inter-American Defense College in Washington. Neither in training programs nor there-after does the Pentagon insist on compliance with the Geneva conventions reserding humane treatment of prisoners and noncom-

batants. Equipment is given without strings.
For the United States, which led the crusade against Nazi evil, to support the methods of Heinrich Himmler's extermination squads is an outrage, U.S. support is also counterproductive. Unless mass killing

> Unless mass killing stops, the tide of violence will inundate the whole of Central America.

stops, the tide of violence will inundate the whole of Central America. whole of Central America.

Continued U.S. support of Mafia-like obgarchies and their uniformed gunmen is alienating the increasingly vocal masses of Latim America. Not another cartridge or spare
part should go to Central American military
regimes until the atrocities stop.

The United States should encourage others

to take the road of democratic Costa Rica. the only heretofore stable country in Central America, to dismantle predatory military establishments and replace them with efficient gendameries under strict civilian control.

The writer directed counter-insurgency and internal-defense planning for Presidents John F. Kennedy and Lyndon B. Johnson while in the State Department from 1961 to 1966. Now a resident associate of the Carnegie Endow-ment for International Peace, he contributed this comment to the Los Angeles Times.

against renewed hostilities.

or otherwise."

So it was that on Nov. 9 last

AVITH

In order for a U.S. initiative to have some chance of success, it must be acceptable to at least some Israelis; the Israeli partners for an American initiative need not be a majority of the people. A minority faction convinced of the effectiveness of an American policy will often fight public opinion with all its strength to convince other Israelis

strength to convince other Israelis of the policy's advantages.

That is exactly what happened in the long negotiations that led to peace with Egypt. Israeli public opinion was often dangerously cool, skeptical that any agreement was possible. But the "Peace Now" movement — a small, siederate group led by junior officers from the Israeli reserve forces, which advocated immediate peace even if vocated immediate peace even if this meant making considerable concessions — succeeded in keep-

ing the peace process alive. The movement did not have a Knesset majority or a large following, but its argument that Israel must not miss the historic opportunity to make peace convinced most of the population. If the "Peace Now" movement had not arisen as an active, loyal partner to the Egyptian-U.S. initiative, it is doubtful whether the Camp David accords and the peace agreement would have been signed.

Before Washington comes up with an initiative, it must be certain that it will have partners in Israel — partners who see the proposed plan as a useful catalyst and

a "sure starter." The administration will fail if it recognizes only the Palestine Liberation Organization. But if it encourages the peace process by urg-ing both sides — Israel and the PLO — toward mutual and simultaneous recognition of the right to self-determination, it will find in Israel a fair number of partners.

Without a solution to the Palestinian problem, there will be no stable peace in the region. Without a stable peace, even the separate peace treaty with Egypt will be very fragile. If the desire is to save the peace with Egypt, we must pre-pare to negotiate a solution to the Palestinian problem.

It is unlikely that such negotiations would be possible without PLO participation, and the only basis for negotiations with the PLO is mutual recognition: The Arab Palestinian nation must recognize the right to self-determina-tion of the Jewish nation in Zion, and the Jewish nation must recog-nize the Arah Palestinian nation's right to self-determination.

The Reagan administration can begin now to encourage such mutual recognition, laying the foun-dations for peace. Such founda-tions will not be built on anti-Israel declarations, nor by arms deals with confrontational states in the region. Nor by sanctions against Israel and reproofs every other day. None of these actions will acquire partners in Israel. They can bring only misunderstanding and increased intransigence.

An American initiative that establishes a reciprocal right to selfdetermination for both nations the Jewish and the Palestinian will acquire partners. Only such an

initiative is likely to succeed.

0/982, The New York Times.

Columbus Reports By Flore Lowis

A French

DARIS — Although he is having I have domestic problems with the fall of the franc and emiscus in local elections. President François Mitterrand seems related about the state of the world, and comfortable in his relations with the United States.

He was criticized in France for his lightning trip to see Frankent Reagan on March 12. But he points out that their three hours of uninterrupted talks was more than uninterrupted talks was store than the two leaders can ever utanage at international conferences. He obviously feels he got his points across, although he received no assurances on U.S. intentions, nor did he give any on French policy.

The key issues were East-West relations at a time of evident leadership crisis in the Krenlin, Central America, and currency prob-

tral America and currency problems. Mitterrand had made a much dramatized trip to Israel before he went to Washington, but the Mid-die East was not a major subject because he believes no important moves are possible while Israel sticks to its current position.

On East-West trade, Europeans and Americans seem to be moving toward a compromise, The United States acknowledges there is no way it can hold up the Soviet gas pipeline deal, while the other Europeans are willing to discuss agreed tightening of credits for Moscow. Mitterrand told the United States he does not think the deal would make France dependent on the Soviets. He notes with an wonic twinkle that France will pay for the gas with francs, while it has to pay high-cost dollars for its oil.

Currency is a serious concern in Western Europe. Mitterrand would certainly like to see U.S. interest rates go down. But hopes that America will ever adjust its economic policy to take account of allies are waning in Europa, and the new focus is on perseading Washington to intervene in inter-national markets when the dollar gets too strong

Mitterrand got no promises, but he will take it up again, and he did not seem irritated. His view is that he has to undecstand American policies in American terms, but that he also has to speak out when they undermine his policy,
lie spoke of joint concerns, basically on security, and of differences that are natural. It is inevitable

that France and the United States, across the Atlantic, have different reactions to the Soviets because of geography. Even Boan and Paris have differences of attitude. Frankly

Mitterrand, who spoke vaguely about the need to "get out of Yal-ta" at the time martial law was im-posed in Poland, does not express tears about the evolution of West Germany which some French commentators think is leading to newtralism and an offort at rounification. There is no way to end the Yalta partition of Europe without a grave crisis, he says, so the necesslowly, over decades, and with great prudence.

He believes France's profound, strong accord with West Germany is valuable for the solidity of the Western alliance.

Mitterrand expressed conviction that the alliance could not remain sound without a coherent international monetary system - not necessarily another Bretton Woods structure, he stressed, but the sys-tem must be coherent. He did not complain about U.S. relactance,

but he was insistent. He found the Reagan administration divided on the way to deal with Central America, with some officials coming to think that a general negotiation, with non-aggression guarantees from countries in the region, could be a solution, and other officials opposed. The contradiction that the United States faces, he thinks, is a desire to contain what Washington considers a Communist push to expand and start dominoes falling, and an awareness of the probable disaster of intervention.

He sees Soviet and Cuban interventions are the course but

volvement not as the cause but only the consequence of troubled societies. France is not trying to mediate. But he does not think the status quo can be maintained.
"Destiny hesitales," he said with
the literary turn that is his style.

Altogether, he seemed to have enjoyed his jaunt and to feel he is getting on well with the United States. He realizes that the Reagan administration was uneasy about him at first, but now they see that he is not anti-American. "I'll never play on anti-Americanism." he said. "But I'm not there to say yes to everything, even before I hear what they say. They know I speak

frankly and honestly."
The theme of understanding interested him. ft is true that Europeans and Americans know a lot less about each other now than they did a generation ago. There are no serious centers of American studies in France, for example.
"Europeans will have to redis-

cover the United States," he said. "and vice versa. We have to remvent Columbus. We're all responsible for that." 01982, The New York Times.

## U.S. Details Charges Of Wide Soviet Use Of Chemical Warfare

WASHINGTON — The State Department said Monday that a detailed investigation has led to detailed investigation has led to the "inescapable conclusion" that the Soviet Union has used chemical warfare agents in South Asia and Afghanistan on a wide scale.

"There is no evidence to support any alternative explanation," the department said in a summary report to Congress. On Friday, in an earlier report

to Congress, the administration stressed the need for the United States to build its chemical warfare capability because Soviet forces are now the world's "best prepared and best equipped" to fight in sucb a conflict.

Richard R. Burt, director of the epartment's politico-military affairs, said Monday there "is abso-lutely no connection" between the U.S. charges and the administra-tion's effort to win congressional approval of increased spending for chemical weapons. "Our primary desire is to raise this issue higher on the international agenda," he

Accusations by Haig

Based on interviews, chemical analyses, autopsies and a study of Soviet military manuals, the State Department report said attacks with Soviet-made chemical weapons have claimed thousands of

The findings follow the lines of charges made in September by Secretary of State Alexander M. Haig Jr., who said mycotoxins, poisonous chemical substances produced biologically, were being used in Laos and Cambodia by the

Mr. Haig also said the Russians commonly used other kinds of chemical weapons, including nerve

gases, in Afghanistan.
Since Mr. Haig made the charges, the State Department has been under pressure to produce hard evidence to support them. The findings released Monday were intended to bolster the ad-

ministration's position.
On Sunday, Vice President
Bush, speaking at an Afghanistan Day reception, said that the Russians "have opened Pandora's box of modern warfare. They've used chemicals - nerve agents, phosgene oxime, perhaps mycotoxins, and others. Over 3,000 deaths alone have been attributed to

A group of UN officials who investigated the U.S. charges said fy nor refute those involving Af-

ghanistan.
Monday's State Department re-

said the figure could be higher.

In Laos, more than 6,310 people have died from chemical warfare attacks, the department summary said. The death toll given for Cambodia was 981, but was described

as "a minimum figure."

The summary said there were 3,042 victims in Afghanistan, but said the figure excluded many incidents where firm information was not available.

The report cites intelligence reports of Soviet personnel moving poisonous chemicals in bulk to various theaters of war. In at least one case, where a ship sunk in Vietnam, there were widespread injuries to divers that would be asistent with chemical weapons,

Report of French Doctors

LONDON (AP) — French doctors, operating relief missions in parts of Afghanistan held by antigovernment rebels, report that Soviet-backed troops increasingly are attacking civilians and may be using chemical weapons. The Times of London reported Monday.

The Russians have been conducting a reign of terror," The Times quoted Dr. Claude Malhuret, director of the relief group Medecins sans Frontières (Doctors Without Borders), as say-

The newspaper said Dr. Malhuret's group, along with two other French groups, Aide Medi-cale Internationale (Medical Aid International) and Medecins du Monde (Doctors of the World), have protested "what they consider to be atrocities against the civil-ian population by the Soviet occupanon forces" in Afghanistan.

The doctors, about 25 men and women running clinics in eight Afghan provinces, also reported that three French-run bospitals were attacked in November by Soviet fighters and helicopters, The Times said. It said in each case, patients and medical staff only narrowly escaped injury.

As to charges that government forces in Afghanistan have used chemical weapons, the paper said the French ooctors have not seen

any direct evidence. But it added that the doctors "have have heard numerous re-ports from Afghans that point to its use. Some victims, they said, bore traces such as blackened skin, blisters and other symptoms that seemed to suggest chemical attacks. In one case, the doctors exaport was based on statements of victims, witnesses and several delictors who took part in chemical warfare, analysis of samples such

## 3,000 Reportedly Flee Attacks in Cambodia

From Agency Dispatches
BANGKOK — About 3,000 Cambodian refugees have fled to Thailand in the past week to escape Vietnamese attacks, Thai military sources said Monday, and the Khmer Rouge radio reported that Vietnamese forces have stepped up

their use of chemical warfare. A spokesman for the Thai mili-tary command said Monday that Vietnamese troops, who last week scized a key stronghold of the ann-Communist resistance, are continuing their sweeps against Cambo-dian forces in southwestern Cam-

## Foreign Observers Set To Check Salvador Vote

By Warren Hoge New York Times Service

SAN SALVADOR - There is to be a foreign invasion of El Salvador this week, one that most Salvadorans themselves are welcoming. More than 100 foreign observers will be arriving to monitor the final days of campaigning and Sunday's elections.

The Salvadoran government and its principal backer, the United States, are hoping they will ob-serve the cleanest balloting in this nation's history. Voters will be choosing members of a 60-member assembly that will name an interim president and write a new constitu-

Who are the observers? What

will they see - or, perhaps more important, what will they not see? They are a varied group. The president of Queen's College, Cambridge, has been invited and so have some Latin American movie stars, Sen. Nancy Kasse-baum, Republican of Kansas, leads the seven-member U.S. delegation. Many independent organizations such as the the AFL-CIO, the American labor organization, and Freedom House, a nonprofit U.S. group established to strengthen free institutions around the world, are sending delegations.

Members of an earlier invasion force, the international press of foreigners watching El Salva-

dor's electoral process to more than 300.

Of the more than 60 nations asked to send observers, only 20 accepted, and some of them have asked El Salvador not to disclose their acceptance. Among those who openly agreed are Argentina, Chile and Uroguay, all hostile to elections in their own countries. One of the largest delegations is coming from Guatemala, whose presidential voting two weeks ago was marred by charges of fraud. There will also be groups from Honduras and other regional democracies such as Costa Rica, Colombia and Venezuela.

Expenses Paid

The government has agreed to pay travel and living expenses for

two observers per country.

There is no prescribed method for observing. "We expect some of them to spend their whole time at the pool," said a diplomat.

He was not talking about Rich-

and M. Scammon, a member of the U.S. delegation who has observed more than 40 foreign elections and bundreds of contests in the United States. He is probably the world's best-known authority on elections.

His recipe for good observing is to "marinate yourself in the law and practice of it." With his fellow election expert and delegation member, Howard Penniman, be has visited El Salvador twice in the past four months. The other Americans are the Rev. Theodore Hes-Eagle Mountain.

burgh, president of Notre Dame University; Clark Kerr, president emeritus of the University of California at Berkeley; Rep. Robert L. Livingston, Republican of Louisi-ana; and Everett Briggs, deputy assistant secretary of state.

Mr. Scammon said the observers would visit the central election headquarters and polling places in the field. "You just don't go to the board of elections," he said.

Some of the things they will be looking for are whether the pre-cinct uses a ultraviolet light machine to detect markings on fingers, a system designed to prevent people from voting more than once, and whether anyone follows a voter into the booth or sees the completed ballots.

We'll also want to look outside and make sure there isn't someone out there saying, 'Aha, Rosa Gon-zalez, you should have stayed bome today, we'll remember you," Mr. Scammon said in a telephone interview from Washington.

He said he believed the observer system provided good insurance against the theft of an election, but conceded. We have no way of knowing whether force has been exerted or threats made. And we can't see collusion like when six parties get together and decide they're going to divyy up the bal-

ficials and watchers from the parues competing. The foreign ob-servers will be asked where they want to go, but the government will have "suggested routes" for those who have no preference. They will be accompanied by guards in civilian clothes carrying handguns. "Some of them may complain about the security, but in the end it is not their responsibility but ours," a government spokesman said.

The guerrillas have vowed to disrupt the elections, and Mr. Scammon said, "the biggest imponderable is bow much the terror will have an effect."

Asked if be thought the rebels would carry their campaign through to election day, the head of El Salvador's Central Electoral Council, Dr. Jorge Bustamante, said, "To answer that question l have to put myself in the mind of the guerrillas. I think if I arrived outside a polling place and saw big crowds there, I wouldn't do any-

Plane Crash in U.S. Kills 5

WILLIAMSPORT, Pa. — A sin-gle-engine airplane crashed into a mountain Sunday while trying to land in a light drizzle and fog, killing five members of a New York family, the police said. The badly burned bodies were recovered from the densely forested crash site 200 feet from the top of Bald

## El Salvador Left and Right United In Loathing of Christian Democrats

By Warren Hoge New York Times Service

SAN SALVADOR - Venceremos, the radio station of El Salvador's leftist rebels, recently inter-rupted its daily fare of heraldic calls to insurrection to give air time to some statements by Conrado Lopez Andreu, an improbable revolutionary spokesman. Mr. Lo-pez Andreu is the president of El Salvador's Chamber of Commerce.

What brought the two sides in the country's violently polarized politics together was their common loathing for the group in the mid-dle: the Christian Democratic Par-Led by the president of the mili-

tary-civilian junta, José Napoleon Duarte, the Christian Democrats have taken hold of the center of El Salvador's political life and are Washington's sole bope in Sun-day's elections for a constituent as-But at bome, they have engen

dered such hatred on both sides of the ideological spectrum that it is doubtful they can win a majority of seats, and if they did it is open in question whether they could govern effectively.
"It's intriguing," said a U.S. dip-lomat who used to be stationed in

El Salvador. "Everybody detests the Christian Democrats, yet they are the only group that behaves themselves in ways we can stand. They're absolutely loathed, even though they are reasonable, they don't kill, and they don't foam at

the mouth."

In Managua, a leading Salvadoran opposition figure, Guillermo Manuel Ungo, blamed the junta and the U.S. government Sunday for prolonging the civil war in El Salvador, saying that the guerrilla-led opposition had been ready for months to negotiate a peace settlement. settlement

"But so long as there is no dia-logue, it is logical to expect the war to continue, before, during and after next Sunday's elections," he said at a news conference.

Mr. Ungo, a Social Democratic

polincian who is president of El Salvador's Democratic Revolutionary Front, the guerrillas' politi-cal arm, said be boped nevertheless that negotiations would be possible after the elections. Deane R. Hinton, the U.S. am-

bassador to El Salvador, and Thomas O. Enders, assistant secretary of state for inter-American affairs, have said continuation of U.S. aid to El Salvador would depend on commitments by the new government to pursue economic and social changes begun in the last two years. The Christian Democrats authored those changes; the party is the only one of the six running that has pledged to proceed with them.

The campaign has become a business class, who had long resist-contest in which all the other parties are running against the Christon on the power.

tian Democrats. The left, which is not participating in the election, refers in Mr. Duarte and the Christian Democrats, who have been governing El Salvador in alliance with the armed forces for two years, as

Son of Founder

A number of Christian Democrats left the party in protest over the pact with the military and are now with the Democratic Revolutionary Front. The front's presi-dent, Mr. Ungo, is the son of one of the eight founders of the Chris-

tian Democratic Party.

If, as is expected, the Christian
Democrats do not gain a clear majority in the new 60-member as-sembly that will be naming an in-terim president and writing a new constitution, their only way of gaining power will be through coa-lition. Salvadoran political tradition does not offer much hope that such violently stated differences

can be laid aside. The evolution of the Christian Democrats, from their beginning El Salvador's first party of so cial concern to their current pillo-ried position, dismays adherents. "We haven't been able to explain to the middle class that not everything bad that has happened to this country is our responsibility." said Abraham Rodriguez, another

of the founders. The party emerged from a liberal student movement of the late 1950s. It gained a number of mayorships and in 1972, allied with the Social Democratic Nationalist Revolutionary Movement and the Communist-front Nationalist Democratic Union, it won the presidency. The military installed its own man, bowever, and Mr. Duarte went into exile in Venezue-

la for seven years. When he returned and was offered the chance to head the junta, be specified that members of the

### 17 Policemen Are Hurt In Frankfurt Protests

The Associated Press
FRANKFURT — Seventeen policemen were injured in clashes with 200 stone-throwing demonstrators protesting the construction of a new rumway at Frank-furt's airport, the police said. The police used tear gas and wa-

ter cannons against the demonstrators Sunday, but there were no reports of injuries among the demon-strators. The protesters say the construction will mean the destruction of millions of trees; about 370,000 have already been felled.

Extreme Right Blamed

WASHINGTON (WP) - Mr Duarte blamed the extreme right Saturday for violence against jour-nalists in El Salvador, saying some of the violence could be coming from within the military.

treme right in this country and they really worry about if we win the elections," he said on a television interview show taped Satur day in San Salvador. doing everything they can and one of the things they are doing is threatening people." Four Dutch journalists were killed last week in El Salvador, and

the government said they had been caught in a firefight between guer-

There is a structure of the ex-

rillas and the army. Threats against other foreign journalists were reported last week. Mr. Duarte predicted a good turnout in Sunday's elections de-

spite intimidation by extremists of both left and right. Leftist guerrilla leaders have been threatening a major offensive just before the elections, including the destruction of transport. They have also threatened violence against voters. But Mr. Duarte said he was confident that the army would be able to maintain control and secure the voting

ARMY HISTORY — Territorial Lt. Col. Jean Blackwood, 37, of the Women's Royal Army Corps, arrived in Bristol, England, on Monday to become Britain's first woman army regiment commander. She will command the 37th (Wessex and Welsh) Signals Regiment (Volunteers).

### Most London Riders Grudgingly Pay Newly Doubled Bus, Subway Fares

LONDON - There were scattered protests and a bus conductor was arrested after a scuffle with a passenger, but most commuters grudgingly paid np Monday on the first business day of London's newly doubled transport fares, believed to be the highest in the

Most passengers appeared to be ignoring a call from Labor Party members of the Greater London Coincil to pay only the old fares. The "Can't Pay, Won't Pay" campaign was named after a current stage hit by Italian anarchist Dario

Labor transportation spokes-man Dave Wetzel boarded a bus and refused to pay the full fare, urging other passengers to join him. But the passengers voted that he should get off.

The new fares, which went into effect Sunday, raise the cost of a bus ride from a minimum 10 pence

(18 cents) to 20 pence. Subway fares rose from a minimum 20 pence to 40 pence.

In December, the Law Lords in the House of Lords, Britain's highest court, overturned the council's 25-percent fare reduction, which in six months had boosted bus use 11.5 percent and subway use 7 per-

### 2 Ethiopians in Berlin Are Hurt in Explosion

BERLIN — Two Ethiopians were seriously injured Monday when explosives they were han-dling exploded in their hotel room in West Berlin, the police said.

One of the Ethiopians lost both hands in the blast and the other suffered serious face and other injuries. The police said there was no immediate explanation.

## Nicaragua Defends Expulsion of Indians, **Cites Exile Incursions**

By Alan Riding New York Times Service

MANAGUA — The Sandinista government, which has been sharply criticized for forcibly removing about 10,000 Miskito Indians from land along the Honduran border earlier this year, is main-taining that the evictions were necessitated by growing incursions into northern Nicaragua by armed exile bands.

"We had no choice but to move the Miskitos," said a senior Sandinista commander, who asked not to be quoted by name. "Look what's happening now. It was not an ideal solution, but we couldn't risk having the counterrevolutionaries agitating among them anymore. Unfortunately, we had to find a military solution before a

political solution." Having moved the Miskitos another 6,000 or so fled into Hon-duras — to five new "settlements" about 80 miles (128 kilometers) to the south, the entire northeastern border area has been militarized. Several villages were burned to prevent their populations from returning. Foreign reporters have not been allowed to visit the re-

### International Criticism

When the evictions began, international human rights organiza-tions expressed concern, while some U.S. officials went even further, charging the Sandinistas, in the words of the chief U.S. delegate to the United Nations, Jeane J. Kirkpatrick, with carrying out "a campaign of systematic vio-lence" against the Miskitos.

Last week Sandinista Army units dismantled a rebel camp in northern Zelaya Province after a three-hour clash with an 80-strong column in which 11 exiles and 3 soldiers died. A few days earlier, two bridges in northern Nicaragua were bombed by rightist guerrillas believed to have entered from Honduras.

### Visitors at the Camps

The Nicaraguan government is particularly alarmed by press reports that Washington is giving covert assistance to counterrevolutionary groups in Honduras and by State Department confirmation that about 90 U.S. military advisers are stationed there to train the Honduran Army. On Friday. Nicaragua called for a meeting of the UN Security Council to denounce what it termed an imminent invasion by the United States or by paramilitary groups supported and encouraged by Washington.

Some outsiders have been taken by Sandinista officials to the new Miskito camps and have reported

resent having been moved, the regime appeared to be trying to improve sull-inadequate housing conditions. The visitors said the plan was to resettle these Miskitos permanently and provide them with new land to cultivate.

The regime's relationship with the 120,000-strong Miskito population remains bruised by bitterness and distrust with officials still fearful that a secessionist movement could grow among the Indians and the Miskitos who are unhappy at government efforts to integrate them into the rest of the population.

All but 10 percent of Nicaragua's 2.2 million inhabitants live in the western half of the country, where all major cines and towns and the most fertile land are found. It is on this Pacific side, where the population speaks Spanish and is overwhelmingly Roman Catholic, that all major political developments, including the Sandinista revolution, have taken

The Atlantic coast was a British protectorate until the late 19th century - 75 years after Nicaragua broke away from Spain — and its population of Caribbean blacks and of Miskito and other Indians enjoyed the independence of neglect, speaking English and native languages, maintaining their cus-toms and, in the main, belonging to the Protestant Moravian

### **Growing Resentment**

After the 1979 revolution, the government pledged to improve living conditions on the Atlantic. But its anxiety to incorporate the Indians of northern Zelaya and the blacks living around the port of Bluefields into the rest of Nicaragua seemed surpassed by its haste in trying to turn them into San-

For the first time, a central government presence was felt in small rural communities. When a nationwide literacy campaign offered to teach the Miskitos to read and write only in Spanish, resentment toward the government began to

The government remained insensitive to the ethnic, cultural and religious traditions of the Miskitos and, by early 1981, concluded that the Miskito leadership, headed by Steadman Fagoth Müller, was plotting a secession from Nicara-

Last December, the first raids into the Miskito territory of northern Zelaya took place and at least 60 Sandinistas and more than 40 Miskitos were killed.

## U.S. Planned to Use Bats to Bomb Japan

### Project Was Abandoned in 1944 After \$2 Million Was Spent on Weapon

NEW YORK -- The United States spent 52 million during World War II to develop the ultimate animal weapon - bats, attached to tiny incendiary bombs, which were to be unleashed on Japan from airplanes, American Heritage reported.
In its April-May issue, the magazine says

the 27-month project was abandoned in 1944, but not before some of the bat bombardiers destroyed a general's automobile and buildings at a small California airport.

According to the magazine, the plan was concocted by Lytle S. Adams, a Pennsylvania dental surgeon who returning from a trip to Carlsbad Caverns, N.M., which is home to millions of bats, when he heard about the attack on Pearl Harbor.

Somehow, Mr. Adams got the ear of President Franklin D. Roosevelt and convinced him the idea merited some thought, the magazine said.

### Demoralizing Effect

And Earl P. Stevenson, a top official of the National Defense Research Committee, agreed that the use of the bats - perhaps eased from submarines as well as bombers -could be very demoralizing, especially to a

"superstitious people."
Donald R. Griffin, a zoologist, and Louis
F. Fieser, a chemist, both noted Harvard fac-

ulty members, assisted in the project, Amen-

can Heritage said.

Prof. Fieser designed a celluloid case

three-quarters of an inch in diameter and 2 inches long, which could be filled with na-palm gel. Each device was equipped with a 15-hour timer and was attached to the loose skin of the bat's chest with a surgical clip

The bats, kept in cold storage to make them hibernate, were to be dropped from planes in cases designed to slow their fall. It was hoped that they would find refuge in buildings, bite through the strings and leave the explosives behind.

### Hangers Ignited

But a May, 1943, a test of the bat weapon at Muroc Lake. Calif., was an unmitigated disaster, the magazine said. The bats were harder to capture, handle and force into hibernation than had been expected. The containers did not do enough to slow the descent. Many bats broke wings or never awak-

The bats dropped from the planes were not equipped with bombs, but others on the ground that did have the devices somehow escaped, igniting hangers and other buildings as well as an unidentified general's car.

When it appeared that the government

was going to give up on the project, Mr. Adams lobbied the Navy to carry on Mr. Adams himself was squeezed out of the project after numerous disputes, including one time when he decided to release 10,000.

bat bombs in the California desert. When a lieutenant "pointed out the tre-mendous hazard involved to the whole of Southern California by such a program, Adams was most indignant, and the licutes-ant finally had to tell him that such an experiment would not be performed even if he the

NRDC consultant, is quoted as saying. More tests were more successful, and production of as many as one million but bombs was scheduled to start in March, 1944. But in March the chief of naval operations ordered a halt to the program, citing uncertainties involving the behavior of the bats and the length of time before an actual strike could

lieutenant] had to stand in front of the assu-nal with a machine gun to prevent it." Wil-liam G. Young, a UCLA chemist and

he launched, the matazine said. On a weight basis, according to the magazine, the bombs were the most effective in the American arsenal. A planeload of bat bombs could set as many as 4,748 fires, com-

pared with 400 fires set by other bombs.

The design of the incendiary device remains classified, the magazine said.

## Kenya Theater Ban Linked to Critical Author

"I had \$880 in my bag and it wasn't in American Express Travellers Cheques. The lift stopped on the second floor and two strangers got in..."

don't mind admitting it, I was scared.

I was sure I was going to be robbed and my trip would be ruined.

As it turned out the two strangers were perfectly innocent, just a couple of lads going to a fancy dress party in the disco on the hotel roof. But the fright they gave me reminded me just how unsafe you can sometimes feel if

you carry a lot of cash. You know what I mean?

Since that little experience, I've always taken most of my money in American Express Travellers Cheques and it's amazing how much more relaxed I feel. Because if they're lost or stolen it's inconvenient, but it isn't a disaster like losing cash.

Do you know what happens?

You just contact the nearest American Express Travel Office\* and they can arrange a refund. You don't have to wait until you return home; they can make the refund while you're still travelling, so your holiday isn't ruined.

How do they do it so fast?

They're a world wide organisation. There are offices in 160 countries, so if you need help they're in a position to give it to you. They've got the world's most experienced refund system.

The other reason why I prefer them is that American Express is a famous name. People recognise it and trust it, so you find countless hotels, shops and restaurants around the world where they're happy to accept American Express Travellers Cheques just like cash.

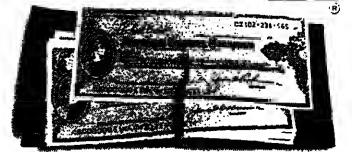

They're available in US dollars, a currency

that's widely used, as well as in other major currencies.

So next time you travel abroad, take the world's leading travellers cheques, American Express. There's no safer way to

carry your money.

New York Times Service KAMAKURA, Japan — You eannot miss Isaku Yanaihara. One lock of gray hair stands almost vertically on his hrow as he strides through the crowds outside the station wearmg a voluminous gray kimono, his feet shod with geta -clogs.

He has an imperious expression, sweeping through the people, dangling a cane that he car-ries since he suffered a stroke recently, Prof. Yanaihara, an authority on modern European art. has a broad forebead and an eagle beak of a nose. His dark garments flow about him, whipping in a winter hreeze.

He is one of a rare breed of Japanese aesthetes who had a personal impact on art in the West, in his case through friendship with the late Alberto Giacometti in Paris in the 1950s.

### Effect on Europeans

Japanese intellectuals ventured to Europe after the nation opened its doors to the West in the late 19th century. A few, like Yanaihara, were later seen to have significantly affected artists they met on their travels.

The fascination exercised by Japan on European artists -Paul Gauguin, Vincent Van Gogh, Henri de Toulouse-Lau-- is well-known. Japanese prints of the pre-modern Edo era that followed to Europe infin-enced a generation of French painters seeking to escape from academicism. They were painters seeking to escape from academicism. They were enraptured by the spare line, economy of ex-pression and sheer punch of the

After the prints came the first Japanese travelers. Michio Ito, the pioneer modern dancer, in-

spired Ezra Pound's interest in Japanese culture, then almost un-known, in pre-World War I London. Years later, Pierre Bonnard was deeply impressed in Paris by the work of Shigeteru Kusume, a talented young Japanese assist-ant who worked at his atelier.

Prof. Yanaihara, whose told his story to an American reporter for the first time, belongs to what one may call a third wave of Japanese influence in Europe. They went after World War II: a small group of men, mainly visitors to Paris, who impressed European artists not by introducing an unknown culture - Japan was well on the man by this time - hut hy their gritty characters, intuitive powers and also, in Yanaihara's case, by a stern, unusual face.

Yanaihara said he first met Giacometri on Nov. 8, 1955 at the Deux Magots café in Saint-Germain-des-Prés. Yanaihara, who was living in Paris on a scholarship arranged through the French government, had written to Giacometti saying be wished to give him an article on the painter written by a Japanese friend and sent from Tokyo.

Giacometti was besieged by visitors, some merely curious intellectual tourists, others dealers. yet others seeking monetary fa-vors. Generous with his time, he accepted many of these invaders, though they cut into his labors at

After more than a year in Paris, idling away his time as he os-tensibly studied modern French philosophy, Yanaihara had acquired a range of acquaintances, including Georges Braque and Jean-Paul Sartre. He spoke pass-

He recalled how used to wait for Giacometti in a café near the atelier, as their friendship budd-ed in early 1956. He has a photo

Giacometti's 1961 "Bust of Yanaihara."

of that period, showing a lean, tense Japanese, bent forward with a short stubble on his upper lip, seated alongside Giacometti. Yanaihara's face, marked a little by heavy drinking and late hours, is a classic samurai face, with a wide jaw, a jutting chin

and piercing eyes, the face of a fighter. It stands out among the receding chins and small noses of the Japanese: a haughty, almost brutal face.

Yanaihara began to serve as a model for Giacometti from the late summer of 1956 at sittings that were, qualified observers be-lieve. a turning point for Giacometti as a painter and a man. Giacometti reached a zenith in his last years - he died in 1966 - and his work attained a pitch of achievement from the mid-1950s. It is already evident in the oil paintings and drawings

Meanwhile Yanaihara - with. he said, the "approval" of Giacometti — began an affair with Annette, the painter's wife.
The three — the Giacometris and Yanaihara - frequently went out drinking together in Left Bank cafes. The love affair was public knowledge, according to sources in Paris.

of Yanaihara from 1956.

Yanaihara, who was due to return to Japan in September, 1956, to teach at Osaka University, postponed his plane reservations "four or five times" while Giacometti, in daily sessions, struggled for four months without success to complete a portrait of him. It was a battle the painter fought with other models - the American James Lord has published his account of a similar prolonged effort in the early 1960s — and it now belongs to art history.

"I was sure he was the most important, the greatest artist in the world," said Yanzihara at his book-crammed home here, hemmed in by three immense sleepy cats in his kitchen. "I was iastic to pose because 1 liked his work so much, otherwise I couldn't sit for him," though by postponing his return, he said, he risked dismissal by Osaka University.

Yanaihara's diaries, a series of little books written in a mixture of Japanese and French, often in shorthand or in cryptic form, cover the period. He used them and a few letters he received book titled "Giacometti to tomo ni" ("Friendship with Giacomet-ti") puhlished by Chikuma Sho-

bo in Tokyo in 1970. He said that he also knew Caroline, Giacometti's next important model. Caroline, meeting her "many times" in 1960 and 1961. The young woman, described by Yanaihara as a wild person with ties to the underworld, exerted a powerful force on the aging artist. She was in turn "very fond of Giacometti," he said.

### Train of Events

Yanaihara, now 63, is described hy Hisao Domoto, a Japanese painter who lived in Paris in the 1950s, as "slow" on the uptake, late in realizing the impact of his actions. Even now it appears not to have fully dawned on him that his appearance at Les Deux Magots in November 1955 started a train of events with deep impact on one of the great artists of the 20th century. "Do you sense that you had a personal influence on his life?"

"I can't say there was none," said Yanaihara, using a a circumlocution in Japanese. He laughed

Meanwhile the unfinished portraits of Yanaihara owned by the Guggenheim museum in New York and by the Art Institute of Chicago testify to a friendship that is likely to preoccupy future biographers of Giacometti.

"Aside from his personal place in the artist's life," commented one American critic, "Yanaihara was important to Giscometti because it was while working on the portraits of him that a further ahyss of perceptual bafflement . . . seemed to yawn at the very tip of the paintbrush with a consequent deepening and darkening of aesthetic powers."

## Both Germanys Mark Goethe's Anniversary

### By Derek Parr

BONN — Germans in East and West paid tributes ranging from wreaths to record-breaking recitations to mark the 150th anniversary Monday of the death of Johann Wolfgang von Goethe, Germany's greatest man of letters.

Frankfurt am Main in West Germany, where Goethe was born in 1749, and Weimar in the East, where he died on March 22, 1832. Goethe, writer and scientist and a minister in the duke of Weimar's court, is one of the most illustrious

Germans to be honored by both the Communist and the capitalist states since the country's postwar West German President Karl Carstens told pupils in a Bonn

school in an anniversary speech

that he was pleased that both parts

of Germany were colebrating the occasion. "That way the poet belongs to the whole nation, which — as this day shows — is well and truly alive while Germans in East and West proudly proclaim their great poet,"

Marathon Recitation The record-breaking was done in Frankfurt where actor Wolfgang Kaven recited titles of books and essays on Goethe for 17 hours in a glass cabin in the center of the city. Kaven, allowed a five-minute

break every hour, was not even hoarse when he wound up his per-formance at midnight Sunday to qualify for a place in the Guinness Book of Records.

"It was a bit hard physically, but I'm fine again now," he said. "I didn't do it to get into the Guinness Book of Records but because I believed in the idea."

Over the weekend Hesse state radio turned one of its stations into "Radio Goethe" and broadcast items such as a quiz between schools named for Goethe in Wetzlar and Frankfurt on their knowl-

edge of the bard. Other items on the season's Goethe menn in Frankfurt are a chef cooking Goethe recipes, an actress reading Goethe works in the poet's own Frankfurt dialect and seminars at the university ranging from "Goethe as Bible Expert" to "Goethe and the Modern Theory of Color."

Prime viewing-time choice on West Germany's two main televi-sion channels Monday night were excerpts of Goethe's work "Faust," the epic story of the man who sold his soul to the devil.

East and West German leaders, in rare concord, culogized the poet, A wreath from East German Communist chief, Erich Honecker. was dedicated to "the German poet genius." President Carstens

Goethe at 80, by Stieler.

### spoke of Goethe in Bonn as "one of the greatest."

East Germany built up to the anniversary with exhibitions dedicated to the author's life in East Berlin and Leipzig, where Goethe was a student. A new permanent exhibition has been set up in the Weimar Goethe Museum

The East, unlike the West, has depicted Goethe on its currency, an honor he shares with Comm nist prophets Karl Marx and Friedrich Engels and women's rights activist Clara Zetkin. The bard's portrait graces the 20-mark.

The official Communist Party daily Neues Deutschland com-memorated Goethe with a full-page article praising him as a man of the people, a humanist and en-lightened reformer frustrated by

the social conditions of his day. . The paper acknowledged that in opposing reactionary feudalism Goethe in his later work embraced the growth of the capitalist means of production. But it said he had fully depicted the "brutal criminal practice of capitalism" in the second part of "Faust."

West Germany's mass circulation Bild Zeitung took a racier line, depicting the reclining poet surrounded by cameo portraits of five of the women who featured in his love life.

"He was privy counselor, mining director, court theater director, actor, ministrated state. He was an artist and Egginnist. He was a spendulity, a pleasure-seeker and a lady-killer," Bild Zeitung said.

Goothe's early literary reputabiographical novel of a world-weary young man who kills himself because he is rejected by a woman.

The book triggered a wave of suicides in europe and was read seven times by Napoleon, who was reported to have described Goethe. as his only tiving count.

## Château Haut-Brion: An American Favorite Thrives in Bordeaux

By Terry Robards New York Times Service

NEW YORK — Châtean Haut-Brion, one of the greatest wine estates in France, was down and out in 1933, along with much of the world economy. The vineyard had been ranked as a premier grand cru, or first great growth, in the Bordeaux classification of 1855, hut the market for its celebrated wines had shrunk, and its proprietor had committed a tactical error. He had decided to hypass the Bordeaux wine trade and maximize profits by selling directly to stores and restaurants, eliminating the middlemen who traditionally marketed the best Bordeaux wines.

Rumors circulated that the Hant-Brion vines had been afflicted with blight, that they were no longer capable of yielding the wines of extraordinary rich-ness and finesse that had made the chateau famous. Critics began whispering that Haut-Brion no longer merited its premier cru status, that it should be demoted from the exalted company of Château Lafite-Rothschild, Château Latour and Château Margaux, the only other properties that received premier cru recognition in 1855.

The proprietor, André Gibert, decided to give up. He offered Haut-Brion to the city of Bordeaux on the condition that the property be maintained in perpetuity. The city leaders, deciding that forever was too ong, turned him down. So Haut-Brion, with a history dating back to 1509, a property that Thomas Jefferson described in 1787 as the best in all of France for pleasing the American palate, was thrown on the real-

It was one of many. Château Margaux and Châtean Cheval Blane also were for sale at the time along with a number of lesser Bordeaux estates, and Clarence Dillon, an investment banker who had made a fortune in Wall Street before the crash of 1929, recognized an opportunity when he saw one.

Having decided to live part of each year in Paris while waiting out the Depression, Dillon had developed an abiding interest in France and its wines. For reported \$160,000, a fraction of its present value, he bought Haut-Brion, which lies in the village of Pessac in the area known as Graves, just south of the Bor-

deaux city limits. Today Châtean Haut-Brion remains a favorite of American connoisseurs. Revived and nurtured by the

Dillon family for the last half century, it is the most important wine property in Europe under American

Haut-Brion now also has the distinction of being managed by a woman, the Duchess of Mouchy, granddaughter of Clarence Dillon and the daughter of C. Douglas Dillon, who is a former secretary of the Treasury and a former ambassador to France, The Duchess, the former Joan Dillon, is president of Haut-Brion, and her husband, Duke Philippe de Mouchy, is director general.

The full story of Haut-Brion's acquisition by Americans and its revival was told the other day by Doug-las Dillon, who was in New York with his daughter and son-in-law discussing commercial arrangements with importers. Almost miraculously, Dillon recounted, the whispering about Haut-Brion stopped and the wines began to improve as soon as his father restored the traditional links with the Bordeaux trade after the

purchase in 1934, During World War II the chateau was occupied and used as a billet and rest home for German pilots who flew attack missions against Allied convoys in the Atlantic Ocean. The valuable old wines from its

cellars were quietly hidden elsewhere in Bordeaux during the occupation and returned after the war.

Since then most of the income from the estate has been reinvested in capital improvements to restore it to its former level. Ownership eventually passed from Clarence to Douglas Dillon and he turned it over to his children upon becoming Treasury secretary in 1961 because of a law preventing Treasury officials from being in the alcoholic beverage business.

Under the direction of Jean Delmas, the manager and wine maker since 1961, Haut-Brion has held its own against inroads from the urban sprawl of Bordeaux, though the area around Pessac is becoming populous, with houses and apartment buildings springing up within sight of the famous vineyards.

Its wines are coveted by oenophiles with money to spend, for they are among the most expensive of all French wines, reflecting rising demand for a supply that has remained static for the last three decades. The reds display a spicy, almost minty quality in good vintages like 1978 and 1979, and seem to achieve maturity slightly earlier than many of the other topranked Bordeaux.

## **CARON 34 AVENUE MONTAIGNE:** HERE, EVERYTHING IS SPLENDOUR AND DELIGHT.

ERFUMES, face powders, brushes, powder puffs, crystal bottles: all Caron's products, past and present, are henceforth gathered together at number 34 avenue Montaigne in Paris. The new "Parfums Caron" boutique is a palace.

test success has the place of honor. Floral, passionate, voluptuous as night-time, this perfume already has its fans just as "Rose" or "Or et Noir" had theirs.

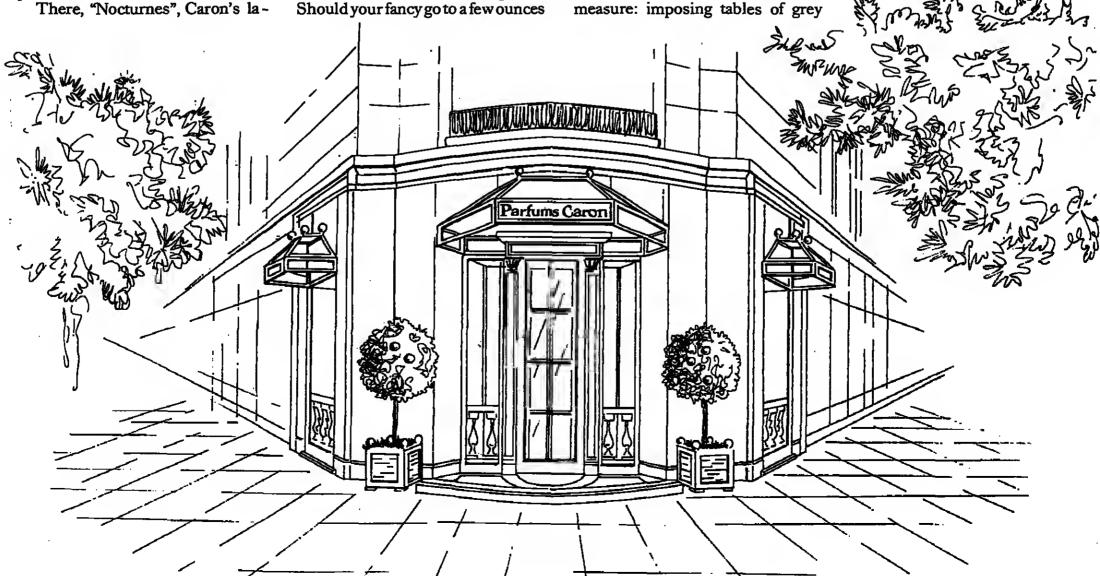

Moreover these perfumes or yore which, since 1904, have made Caron famous, have not been forgotten.

of "French Cancan" or of "Violette Précieuse" then make your choice. You shall take them away in a bottle designed for Caron in 1927.

Caron Montaigne is not like any other boutique. It is a real hall of perfumes. Here, for its scents, Caron has created a universe to their

marble, basins, mirrors, crystal fountains from which spring the perfumes...

One has to visit Caron Montaigne. It is today's meeting place for all those of us who, each day, take part in the perfume ritual.

## **OPEC Accord Reduces Chance for Price Drop**

From Agency Dispatches
VIENNA — OPEC's agreement reduce output raises doubts about recent predictions that a major round of oil-price cuts is in

store, industry analysts say.

Few oil experts believe that OPEC's agreement Saturday to cut daily production by about 700,000 editor of the Middle Eastern Ecobarrels, to 17.5 million, is suffi-cient by itself to tighten the oil market immediately. Rather, they say, the accord is part of a strategy

### **NEWS ANALYSIS**

of holding the troops together in the bope that demand for oil will revive soon.

The cartel's decision to lower

prices of high-quality oil by around \$1 to \$1.80 a barrel will shave only a few cents off the average world price, analysis estimated. But the move will help such heavy producers of high-quality crude as Nigeria, Libya and Algerian is whose cooperation is needed for the effort to prevent a price-cut-

### Saudi Flexibility

The Saudi oil minister, Sheikh Ahmed Zaki Yamani, said in a television interview Sunday that be thought OPEC had succeeded in removing the threat of a plunge inprices. He said his country stands ready to adjust its production to keep prices stable. "If we feel the price of oil is

going up, we will increase our pro-duction." Sheikh Yamani said. "If we feel it is coming down, we will reduce our production."

The Saudi minister said that Britain, which lowered the price of its North Sea crude to \$31 earlier this month, should raise its quote toward OPEC levels. In London, however, the British energy secre-tary, Nigel Lawson, said Monday. that lower prices are helping Brit-

am.
"What we have to do in this country is calmly to sit back," Mr. "The pressure is oot on us. We have a competitive price now. The pressure is on OPEC."

The production cuts are central to OPEC's struggle to withstand that pressure and keep in line all 13 members, some of which have threatened to reduce official prices ant, the production cuts are intended to have a psychological ef

fect — to dispel expectations of a price drop.

That in turn could raise openmarket prices, which are now as much as \$6 a barrel below official

nomic Survey, said after the OPEC session. "I think they've put together a package that will work."
Still, OPEC may find its analysis incorrect. Few OPEC ministers ar-

gue that the optimism following this effort to rally round the flag will long persist without more fundamental signs of a closer balance in the oil market. Countries such as Nigeria, brought to Vienna largely for a heavy dose of peer pressure, find their inclination to reduce prices rising as the distance from their OPEC colleagues in-

whose analysis of the oil market is correct. According to Sheikh Yamani, oil inventories have been shrinking by some 4.5 million barrels a day as oil companies have held off buying in advance of the OPEC meeting. Many private ex-perts believe the withdrawal is about 1.5 million barrels a day or no more than the normal

How much is being drawn from inventories is a critical question, because the more the inventory reduction, the higher true demand. But reliable inventory figures be-come available only months after the fact. That has left the oil community even more divided than usual over what is going on.

An important result of the session was the clear signal that Saudi Arabia will stand behind the benchmark price of \$34 a barrel, on which other OPEC prices are based. During recent weeks, as prices on the spot market, where oil not under long-term contract is traded, plummeted without evident concern on the part of the Sandis, speculation arose that they sought an outright price cut. In-stead, Sheikh Yamani emphasized by the Saudi cut of 500,000 barrels a day that his nation continued to seek a price freeze through the end of 1983.

In retrospect, it appears that Saudi Arabia, OPEC's most powerful member, wanted to ensure

would be unlikely to cheat on any agreement. That stage apparently was reached earlier during a gathering of key members in Doha, Qatar, this month, when Nigeria warned that it might have to match Britain's price.

### **Traders See Little Effect**

ROTTERDAM (Reuters) Traders on the European spot oil market said Monday that they believe OPEC's decisions will have

little effect on spot prices.

Prices of gasoil for prompt delivery firmed Monday, continuing a recent trend, but most other prices were steady, the traders said. No major trades were reported.

Several traders predicted that some hard-pressed OPEC mem-bers soon will break ranks and offer further discounts from their official prices. Some Iranian crude was reported to be on offer at below the official price, but it was too early to say whether OPEC na-tions were already discounting, the traders said.

## Forecasts for U.S. Firms' Profits: Bad to Worse

By Thomas L. Friedman

New York Times Service
NEW YORK — As the economy sinks deeper into recession, forecasters are making their gloomy projections of first quarter corporate

The forecasters say corporate profit margins are being squeezed much oghter than earlier expected, reflecting lower productivity, high interest rates, dwindling sales volumes and product prices that are slipping faster than manufacturing costs. The auto, oil and housing industries are expected. industries are expected to lead the earnings retreat, dragging other sectors closely behind.

"What is most disconcerting," said Gail I Hessol, vice president for industrial ratings at Standard & Poor's Corp., "is that just about any of the industries or companies we deal with have business forecasts that assume a re-covery for the second half of 1982. But when we press them, they admit their orders have not picked up this quarter. If there is to be a recovery, they should be receiving the orders by oow. I think many of them are quietly reasssing their plans."

### Spot Check

And so are the forecasters. A spot check of economic forecasts for after-tax corporate profits in 1982's first quarter — as measured by the Commerce Department in its National Income Account — found predictions of declines ranging from 12 percent to 27 percent from the year-earlier quarter. In the fourth quarter of 1981, profits declined 7.1 percent from a year before, according to the depart-

Downward revisions in projections for the current quarter have been heavy in recent weeks. We had always projected a decline for the quarter, but it just looks worse to us now." said Otto Eckstein, chairman of Data Resources Inc., a Lexington, Mass., economic forecasting firm.

Earlier this month, Data Resources was

predicting an earnings decline of 5 percent. But in light of information received from clients around the country, the company now projects a 13-percent drop in quarterly earnings from the \$169.2 billion of a year ago.

Three factors in particular prompted Data Resources to project sharply lower earnings, it said. First, the oil glut and steady erosion in the price of refined petroleum products are ex-pected to depress earnings heavily in the oil industry and are bound to cut into its capital-

spending plans.
Second, ear sales during the first 10 days of March were a dismal 5.5 million units at an annual rate, down from February's 6.3-million-unit rate. Finally, a robust recovery in the housing and commercial construction industries, essential to a broad range of related industries, has been undermined by high interest

NEW YORK — Prices on the
New York Stock Exchange recorded their biggest gains in over a month, but analysts attributed the rally primarily to a combination of . technical factors rather than any change in the negative news back-

The Dow Jones industrial average closed at 819.54, up 13.89 points, the biggest one-day gain since it jumped 21.59 on Jan. 28. Advances led declines about 1,200 to 300, and volume swelled to about 57 million shares from 46.3 million Friday.

Analysts said the market was

Analysis said the marker was overdue for a technical surge, having dropped in 11 out of 14 weeks so far this year.

"It's definitely internal dynamics; nothing has changed fundamentally," Larry Wachtel of Bache Group said. He noted that the

marker's most recent decline has lasted as long as its sharp slide last

Analysts also pointed to the high level of short positions in the market. On Friday, the NYSE said short interest rose 0.8 percent in the month ending in mid-March to 85.69 million shares, close to the record of 89.53 million set in mid-December. With short interest, an indication of bearish sentiment, at such high levels, investors became oervous that the market was too oversold and started covering their positions, analysts said.

Depressed energy stocks picked up some strength following OPEC's decision to lower oil production. However, the gains were modest, and analysts warned that the production cut will not stop the slide in oil prices over the near

The stock market got a boost from news that General Motors; and the United Auto Workers union reached a contract agreement over the weekend. On the trading floor, GM was active and higher most of the day.

Some investors also were encouraged by the Federal Reserve's report Friday of a \$400-million decline in the basic money supply during the latest reporting week. The decline could put some downward pressure on interest rates.

On Monday, U.S. Trust said it lowered its broker loan rate to 15% percent from 15% percent. The broker loan rates at major banks range from 15% percent to 16 per-cent. Changes in the broker loan rate often preligure changes in

## In Payments From Agency Dispatches WIESBADEN, West Germany

Narrower Gap

- West Germany's current-ac-count deficit last month narrowed to 600 million Deutsche marks from 2.88 billion DM in January and 954 million DM in February, 1981, the statistics office said

**Bonn Posts** 

Monday in a preliminary report.

The current account includes trade in goods and services and certain financial transfers. In trade alone, West Germany reported a surplus of 3.62 billion DM, compared with surpluses of 1.1 billion DM in January and 900 million DM in February, 1981.

Exports last month totaled 34.45 billion DM, up 9.7 percent from January and 14 percent from a year earlier. Imports were up 1.7 percent from January and 5.2 per-cent from a year earlier to 30.83

For the first two months of 1981, the current-account deficit totaled 4 billion DM, narrowed from 6.1 billion DM in the yearearlier period.

West Germany posted a trade surplus for the two months of 4.74 ts Its Duty-Free Import List

"These changes reflect the adinjectration's properties of the superior of the

record a balanced current account for all of 1982. For 1981, the country recorded a current-account def-icit of 17,5 billion DM, compared with 29.8 billion DM in 1980. Commercial bank ecocomists

said the current-account deficit last month represents a setback from the regular improvement seen over the past six mooths. The deficit, coupled with the

January shortfall, means that a serious rise has been recorded in the outflow of funds in the invisible

Although they said it was too early to modify forecasts for the full year, the new weakness of the current account gives cause for concern Several economists had been

predicting a surplus in the February current account of 500 million DM to 1 billion DM following the 2.9-billion-DM deficit originally reported for January.

# Novotel, Jacques Borel Consider Merger Terms

PARIS — Two French hotel chains, Jacques Borel International and Novotel Sieh, said Monday they are studying a merger that would be based on an exchange of three Novotel shares for 20 to 25 JBI shares. JBI currently bolds a 9.67-percent stake in Novotel JBI, with capital of 320.9 million francs (\$51.5 million), expects a 1981 group net profit of more than 25 million francs. Novotel, capitalized at 65.9 million francs, expects a 54-million-franc group net profit in 1981. IET AVIATION

# \*30 Billion Is at Stake in Kuwait's 'Phantom' Exchange when it comes to that amount of money, eigners use front men to invest the Kuwaiti government can for them, according to Palesting the market. It is also rumo

KUWAIT CITY, Kuwait - Its name is souk manakh. "the weather market." and the Kuwaitis refer to it euphemistically as their "parallel stock exchange." But it may be the world's largest gambling casino, because many of the companies — whose stock is changing hands as fast as those hands can

sign checks — do not exist. And it may not be long before it is the. scene of a \$30-billion stock crash, with potentially devastating consequences even for this richly endowed Gulf sheikhdom where billionaire and millionaire oil sheikhs are

loo numerous to count. Souk manakh is a household phrase here. Every day, hundreds of Kuwaitis with idle millions of dinars and dollars on their hands —and many others with less — go down to the souk around noon and again at dusk to gamble on making a fortune before the

It is not only that souk manakh is totally illegal and outside government regulations of any kind. Basically, the market runs on paper money and the dealings are often in little more than phantom companies, according to bankers and diplomats who have followed the phenomenon.

The game, put simply, works like this. Knwaitis trade millions of shares each day with checks dated for payment a year, or even two years, from the time of the transaction. The buyers immediately re-market the shares at higher prices, while the sellers take the checks to Kuwaiti banks, which accept the checks to Auward banks, them at a 10- to 20-percent discount.

Whether a company has a telephore

Whether a company has a telephone, or a

For example, in a recent transaction of 81,395 shares in one company, the going price per share was 2.50 Kuwaiti dinars (about \$9), but the buyer agreed to purchase them at 4.95 dinars with a promise to pay the seller one year later.

The buyer took possession of the shares within two days without laying out a penny. He was then free to resell the same shares at an even higher price in the same way, cashing in the check for payment at a discount with his local bank.

Normally he will already have made a handsome profit on the resold shares, far more than he will have to pay out on the

original purchase a year later. In this manner, the price of Gulf shares has been going higher and higher in frenetic trading, with the volume of outstanding checks growing to enormous proportions. "Playing the market has become a national obsession here," said a Western analyst, adding, "We're talking about billions of dol-

### Money Talks

Billions indeed. Souk manakh analysts estimate that somewhere between 6 billion and 10 billion Kuwaiti dinars, the equivalent of \$21 billion to \$36 billion, is now outstanding in post-dated checks oed up in the stock of companies.

The magnitude of the money involved is

causing jitters up and down the Gulf.
"I think this is very serious," said one
Saudi bank manager in Manama, Bahrain,
where many of these "Gulf share" compames, as they are called, are registered.

bail the market out."

Some manakh market analysts say it is precisely the assumption the Kuwaiti government will act to prevent a monumental crash — as it did in 1977 on the regular Kuwait stock market — that is beloing to

keep the whole phenomenon going.
"It's like a national gambling casino and everyone is betting that the house, which is the government here, will be the big loser,"

Said one Western economist.
Other analysts are not so sure the Kuwaiti government is willing to play the game. For one thing, none of the companies is techni-cally Kuwaiti, although close followers of the market say 90 percent or more of the shareholders are Kuwaiti nationals.

Also, the Kuwaiti government, although it has \$65 billion to \$70 billion salted away in foreign reserves, does not have the cash on hand it did in 1977 because of a drop in oil

carnings resulting from the world glut.

The government has so far remained mum on its intentions. Analysts say it could quickly rein in the wild speculation by de-claring post-dated checks illegal. But most agree it faces a real dilemma, for those who stand to lose a fortune include the largest banks, members of the ruling Sabah family sheikhs and tycoons of considerable polincal clout, plus a lot of ordinary Kuwaitis. In short, the lobby in favor of the parallel mar-

ket staying afloat is enormous.

The stock fever has also infected relative ly poor Kuwaitis and many of the estimated 200,000 Palestinians living bere. Because only Kuwaiti or Arab Gulf-state nationals

can participate, Palestinians and other for-

eigners use front men to invest their savings for them, according to Palestinians involved in the market. It is also rumored that some

Western investors are following suit.
Stories of ordinary Kuwaitis who have struck it rich on souk manakh are widespread. For instance, one Western resident was told while visiting a Kuwaiti family recently that the servant pouring tea for them had just made \$18 million playing the mar-

### Open-Air Billions

The souk is less than a year old and is located in the small open-air central square of a new shopping center stuck between the Gulf and Commercial banks in central Kuwait City. It was supposed to house small shops and stores on the first two floors. Instead, stock brokers, often in the guise

of real estate agents, took over the premises.
The latest "shop" up for sale went for \$31
million, more than twice the original cost of the entire building according to Kuwaiti and Western sources.

In a way, souk manakh is very Arab in its

functioning. Investors pay no attention to such things as the price-earnings ratio of a company, profits, its investment plans or dividends.

Instead, they place their faith in the names of those associated with the compaknown Kuwaiti family name just to attract

"Rationally, you say it is an unreasonable enomenon," remarked the Saudi banker phenomenon," remarked the Saudi banker in Manama, "But this is beyond all reason. Those who have been irrational have made a fortune out of it."

Other rival traders said Morgan

lacks a presence in government bonds and in worldwide money

markets, in which it has just begun

Even Morgan admits to a cer-tain thinness in its trading. The managing director who heads

those operations, Richard B. Fisher, ranked them from "very

competitive" in corporate bonds to

"getting there" in government bonds. He said that the firm's one

"big gap" is that it does not trade commercial paper.

Mr. Baldwin, who is fond of tracing Morgan's tradition of cau-

rious innovation back to the 1940s,

is philosophical about the adapta-

tions started in the past decade

and assured about those coming in

ue going it alone, despite Wall

If Morgan is not interested in

equiring other brokerage houses,

it is similarly not interested in being acquired. The firm has not

been approached, Mr. Baldwin said, and if it were, "we wouldn't be receptive. Not now. We prefer

to remain independent. But I realize that times change. I don't want

to pound the table and say 'Never!' to anything. I've learned never

Street's merger fever.

## New Rules on Wall Street Put Pressure on Morgan Stanley

By Leslie Wayne

New York Times Service : NEW YORK - When Morgan Stanley, the most prestigious of in-vestment banks, lonks to its roots, it sees the industrial financier J. Pierpont Morgan, whose own American ancestry dates to 1636. An offspring of the House of Morgan,
Morgan Stapley has grown rich as
he banker to blue-chip corporate
America, with a client list that is

the envy of Wall Street.

It earns a 20-percent after-tax return on equity. Each year, it either leads or is near the top of the Street firms. In 1981, it appeared as lead manager on \$11.76 billion of corporate stock and bond issues, taking the No. 1 position for he third consecutive year. Its cliints, including 15 to 20 of the naion's 50 largest companies, carry names like AT&T, General Elecric. Exxon and Du Pout.

But the world of Wall Street is hanging, in ways that could hreaten to crack Morgan's noble

### **Upstart Competitors**

New regulations, primarily the Escarities and Exchange Commission's Rule 415, which allows corthe continuous to sell securities directly n investors, pose a threat. Upstart competitors are hunting among among entits rule on being sole manager f corporate industrial issues. A real distribution network, which

any the key to growth.

Characteristically, Morgan Stany is not worried. "Every time mething comes up, our competiers rub their hands and say, Ve're going to get Morgan tanley," said Robert H.B. tanley," said Robert H.B. aldwin, Morgan's lanky Princemeducated president. "It is the necrest form of flattery that they e always shooting at Morgan. nyone who says we cannot comte should come back in two ears to see what the answer will

There is no denying that the curities industry, once primarily service business, is becoming a insactions business. Gone are e days when old school ties and a ming personality were keys to ming clients. The new age is arked by a trading and transac-

While Morgan has, by all acbeen adapting to the its hallmark remains service. It still tends to reuit the ebte of the Ivy League hools and not the gunslingers om Brooklyn, and Morgan's ue-chip client list is seen by some bereft of the growth companies

The purchase of major Wall eet firms by such nonfinancial apanies as Sears Roebuck and ential Insurance has brought w financial might to a new set of apetitors, Corporate treasurers, o because of volatile economic aditions have been forced to bene ever more sophisticated in iling with the markets, are less

dependent on their investment bankers for wisdom and guidance. Once, investment banks simply formed syndicates of brokerage houses to purchase new securities. syndicate participant, hungering for Morgan's exclusive client base, which it calls its "franchise," signed up in fair weather and foul. Take a share of the securities, resell at a markup if possible, and be assured of a place in the next, possibly more profita-

### ble, offering. Remarkably Flexible

That will not be, it would seem, the way of things in the new world of Rule 415. Under that rule, registration requirements are much relaxed, allowing smaller, more frequent issues, and anyone with the money can buy up the whole of a package of securities. This leaves the corporation in a position to shop around for the most attractive bids and is encouraging an ea-ger set of bankers to make those bids.

Because Morgan has outperformed the competition, it is seen as the firm with the most to lose from the changes

"Morgan is facing a bigger turn-about than the others," said Robert R. Glauber, chairman of the finance department at the Harvard Business School. Still, he added, "they have shown an ability for an old Imancial firm with strong-headed ideas to be remarkably flexible. I wouldn't bet that much against them."

Morgan's argument is that Rule 415 will not cause a net loss in business, because corporate treas-urers will still want its quality advice on money-raising matters, particularly as they are besieged by even more bankers. Some clients may be lost, but others will be add-

Morgan has not been associated with the much-heralded financing innovations of the past year — the zero-coupon bond, for instance, debt-for-equity swaps or original-issue discount bonds. Morgan partners like to assert that past innovations, such as floating-rate

notes, were failures. "This firm is innovative, but we're not harebrained," said Lewis W. Bernard, one of the firm's six managing directors. "This firm has an approach to be thoughtful. We don't want to take our clients over

But against the fiscal might of the new financial conglomerates, a firm with less capital — Morgan Stanley has \$204 milbon, com-pared with \$1.2 billion at Merrill Lynch — must display more creativity to stay ahead, according to Richard Gridley, a principal in the consulting firm of McKinsey & Co., which specializes in the finan-

### **WASP Types**

Whether Morgan is able to meet this challenge has some experts wondering. "It starts with the peo-ple they hire," said Charles R. Wolf, a finance professor at the Columbia, Graduate, School, of Columbia Graduate School of Business. "It's the Morgan attitude. They look for certain types. They are quite bright, but a certain

sort. They like to hire WASP types even if they are black or Jewish. And in that environment it is hard to be innovative, because innovation means taking risks, and they

proceed with great cantion."
Such talk angers Mr. Baldwin. Morgan's president. "I get wild when they talk about that white-shoe thing," he said. "Why are we No. 17 Because we are nice people? Because we play golf? I stand on our record. It wasn't because of these so-called school ties. These people are in a tough business. Do you think these people can't compete? If we are getting the cream of the cream of the best business schools, they can't be robots."

Many in the industry contend

that in the Rule 415 world, having a network of hundreds of branch offices is increasingly important. Such a network allows a firm to bid more aggressively for business. particularly equity offerings, because they are assured of a quick

### **Need Ior Alliance**

Yet the chances of Morgan getting into this business by buying regional firms has occreased as these firms have been gobbled up by others, a trend that also affects Morgan's ability to form syndi-

"Morgan's basic Achilles' heel has been the fact that they've cho-sen not to go into retail," said Samuel L. Hayes 3d, the Jacob Schiff professor of investment banking at Harvard Business School. It's clearly a problem fac-ing them on whether they have the in-house capacity to put away a lot of securities in a short period of time — nothing like the potential power of Merrill. Morgan has to have an alliance with individual retail firms. But that's a shrinking

Morgan disagrees. "The distri-bution power of this firm takes a backseat to no one," said the managing director, Thomas A. Saunders 3d. "Our strength is unbelievable. We have the capacity to go head-to-head with any firm in the

Morgan sees its distribution system as being faster than those of large retail houses, which Morgan claims are often so large as to become unwieldy. Also, Morgan argues, individual investors are not a factor in the purchase of corpo-rate bonds, which go almost exclu-sively to big institutions, whose ties to Morgan are strong. Even in

equity issues, 85 percent goes to in-stitutions, Morgan partners said. The issue of whether to pursue broad retail distribution was discussed several years ago at Morgan, but is not today. Morgan

Nonetheless, Morgan bas changed. It raised eyebrows re-cently when it agreed to jointly manage underwritings of secur issued by General Electric Credit Corp. and Du Pont, a departure from a policy of being the sole manager for industrial underwrit-

Morgan has also substantially beefed up its trading operations; until 1971, it did not deal in already issued securities. But it is still viewed as ranking below such trading powerhouses as Salomon Brothers and Goldman Sachs, whose trading roots run deeper and which trade a wider variety of

### INTERNATIONAL SECURITIES FUND S.A. Société Anonyme — Luxembourg

CONVOCATION OF THE ORDINARY AND EXTRAORDINARY GENERAL MEETING OF SHAREHOLDERS

Notice is hereby given that the annual general meeting of Shareholders will be held at the head office of the Corporation, 14 Rue Aldringen, Luxembourg City at 3 p.m. on April 1st, 1982, with the following agenda:

1) to hear and accept the reports of

Al the Directors B) the Statutory Auditor

2) to approve the balance sheet and the profit and loss account for the fiscal year ended

3) to discharge the Directors and the auditor in respect of the performance of their duties

4) to elect Directors and Statutory Auditor in accordance with the articles of incorporation

Resolutions to be taken at this ordinary general meeting of Shareholders are not subject to quarum

Furthermore, notice is hereby given that ordinary general meeting as above, will immediately be followed by an extraordinary general meeting of Shareholders at the same place of meeting for the purposes of considering and, if deemed fit, of opproving the following agenda: A) declaration of a 5% stock dividend;

decision to implement the distribution of a stock dividend by way of an increase of the corporate capital by issuing 53,025 new shares at a par value of \$1 with a premium totalling the last determined net asset value per share and by adding profit available for distribution to the capital

and to the extraordinary reserve respectively;
C) decision to amend article 5 of the orticles of Incorporation to reflect such action.

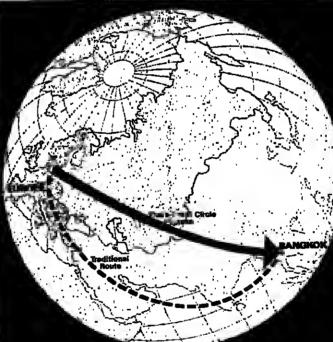

Shareholders are informed that the above resolution may be taken at the extraordinary general meeting only if 50% of the shares outstanding are represented in person or by proxy and must be approved by at least two thirds of shares represented.

In the event that such quorum condition is not fulfilled, a second meeting, not subject to such quorum requirement; will be called through publication of additional notices and will take place after the delays required by law.

In order to be authorized to vate both the above meetings bearer shareholders must deposit their shares 5 clear days before the meetings at the registered office of the Funds or at one of the following

### DENNIS THE MENACE

"I HAVE A FEELING THIS MIGHT BE OUR LAST ROUND-UP."

### **BOOKS**

### EDWARDIAN FICTION

By Jefferson Hunter. 280 pp. \$17.50. Harvard University Press, Cambridge, Mass. 02138. Reviewed by Michiko Kakutani

T WAS an age. George Orwell once wrote, "when people talked about choes and cigs and ripping and topping and heavenly, when they went for divvy week-ends at Brighton and had scrumptious teas at the Troc.

"From the whole decade before 1914 there seems to breathe forth a smell of the more vulgar, un-grown-up kinds of luxury, a smell of brilliantine and creme-de-menthe and softcentred chocolates - an atmosphere, as it were, of cating everlasting strawherry ices on green lawns to the tune of the Eton Boating Song.

These images, depicting the reign of Edward VII as a kind of long golden afternoon in English history, make up one of the most popular portraits of that era, and they are images, as Jefferson Hunter demonstrates in "Edwardian Fiction," that are actually quite apocryphal and shallow, Indeed, the period emerges, in Hunter's careful reassessment of its writers, as s time of change and contradictions, a time when the glories of empire began to recede and give way to a more sobering contemplation of muddled life at home.

The genre of criticism represented by "Edwardian Fiction" is a demand-ing one, requiring scholarly fluency in the literature of the period and a narrative ability to make the reader feel the curvature of history as it impresses itself on the imagination. In this case, Jefferson is twice blessed; he has read widely and read well, and he is also capable of writing about books with a grace and clarity that make us want to immediately read the novels ourselves.

### Organizational Problem

What mars the achievement of his book is a certain organizational problem. The first few chapters — in which the relationship of Edwardian writers to their Victorian predecessors is defined - are needlessly discursive. and a long chapter on Courad awkwardly tries to force a political interpretation on such works as "Heart of Darkness." It is midway through the book, when he begins to sketch the intellectual and political climate of

the day, that Hunter hits his stride. The Boer War, the spread of the motorcar industry, the growth of the Labor Party and the appearance of a militant suffragette movement -- such events suddenly brought into question ail the comfortable faiths and assumptions that Englishmen had lived by,

Solution to Previous Puzzle

and a sense of urgent doubt began to afflict the nation

There were. Hunter observes, several reactions on the part of novelists to this turmoil. In the first place, writers discovered a host of new subjects from psychoanalysis (Algernon Black-wood's "John Silence: Physician Extraordinary") to the growing usual threat of Germany (Erskine Childen "The Riddle of the Sands") to the new docume of Zionism (M.P. Shiel's "The Lord of the Sea"). They also introduced a whole new cast of characters to the novel, characters who would have once been dismissed as insufficiently glamorous — jockeys and spies, journalists and inventors, boust-sives and suffragettes.

Other writers took a different tack Faced with all the nervous-making changes taking place in England, they opted for a more elemental world of escape and romance, creating in such works as "The Blue Lagoon" and "Green Mansions" exotic places where confrontations with nature offered the chance of spiritual redemption, where manhood could be reaf-firmed with simple rites. The figure of the brave hero, alone in the jungle, fending off the darkness by continuing to dress for dinner, came to stand for a romantic world in which beroism was still possible.

### Far-flung Battle Lines

With Kipling, of course, such heroics were identified with the British Empire itself, but as disillusion with raperialism accelerated, even Kipling's work took on a kind of elegiac

"Before "Recessional," writes Hunter of Kipling's famous poem, "is buoyant expansionism and confidence in the heroic national purpose which produced the far-flung battle lines and far-called navies cited in its lines. After the poem is worry about what England would become in the future." Indeed, late Edwardian fiction was

marked by a return to domestic concerus. The novelist packs his bags, turning his attention from the jungles of the Congo to London and the English countryside; his preoccupation with herosam gives way to an examination of the rituals of daily hife; As this retreat takes place, whole matter of "Englishness"

comes a central issue — that is, the question E.M. Forster posed in "Howards End;" Does England belong "to those who have moulded her and made her feared by other lands, or to those who have added nothing to her power, but have somehow seen her, seen the whole island at once, lying as a jewel in a silver sea, sailing as a ship of souls, with all the brave world's fleet accompanying her toward eternity?" It is a question addressed, willfully or not, by nearly every major Edwardian author - authors whose cumulative achievement is intelligently cheonicled by Hunter in this, his first book. His achievement, though flawed, represents the bright debut of a new critical voice.

Michiko Kakutani is on the staff of The New York Times.

### CHESS.

WHEN you are 18 years old and defeating our strongest opposition in games of brilliancy-prize caliber, as Gari Kasparov of the Soviet Union is doing, how can you be expected to develop humility?

WANTED MASK CIRCLE

The new star had the temerity to say that the play of his compatriot Anatoly Karpov, the world champion, was lacking any especially noteworthy feature. Karpov retaliated by chiding Kasparov for his lack of objectivity.
Their first and only over-the-board encounter was a spirited draw.
Back in the 50's, at least a half-doz-

Back in the 50's, at least a half-dozen Soviet grandmasters deprecated the play of the then champion, Mikhail Botvinnik, changing their opinion only after several from their midst had failed to knock him from the throne, Will history repeat itself in a future Karpov-Kasparov duel?

Kasparov's performance in the U.S.S.R. Championship in Frunze was studded with scintillating games. Here is yet another, against Grandmaster Artur Yusupov.

The prevailing opinion is that when using Bogolyubov's 3... B-N5ch and eliciting the reply 4 B-Q2, Black's consistent course is to exchange bishops; thus, one might have expected 7... BxB; 8 QxB, B-N2. In putting off this transaction with 7... B-R3, Yusupov surely did not take interest account of the sure of the surely did not take interest account to the surely did not the surely did not

ung off this transaction with 7... B-R3, Yusupov surely did not take into account the speculative gambit Kasparov fired off with 8 B-N5!?

Should Yusupov have explored the problems of 8... BxP; 9 N-K5, B-Q4; 10 P-K4, B-N2; 11 N-N4, B-K2; 12 NxNch, BxN; 13 BxB, PxB; 14 N-B3, which yields White chances of attack emines the meakaged kingside? tack against the weakened kingside? The Black minor pieces would have had trouble assisting in the king's de-

Yusupov's 10 . . . P-R3: 11 BxN, BxB got him the bishop-pair, but how was be to meet later advances in the center? Of course, after 12... Q-K2, it would have been playing into Black's bands to advance with 13 P-K4?! because 13... P-K4; 14 PxP (or 14 P-Q5, N-Q5; 15 NxN, PxN; 16 N-Q2, P-B4), NxP; 15 NxN, QxN concedes Black powerful dynamic counterplay.

What could have been in Yusupov's mind when he gratuitously kosened his king position with 14 . . . P-KN4 in place of the careful 14 . . P-KN3? Had he played the latter. Kasparov could not have engaged the king's wing so effortlessly with 17 P-

Kasparov far-sightedly sacrificed his QBP for attack with 19 Q-B2!?, P-QB3; 20 N-B3, PxP; 21 NPxP, BxBP. QB5; 20 N-83, PRP; 21 NPRP, BRBP.
After 23 N-K5, Yusupov obviated any
threat of crowding the kingside with
24 P-B5 by his prophylactic
23 . . . P-KB4. However, after 26 PK5, the Black king's wing was
cramped anyway, inviting attack on
the men KN file.

the open KN file. Just when Yusupov could reasonably look forward to simplification

with 31 ... RxRch; 32 RxR, R-KN2, followed by the consolidating 33. N-K2, Kasparov struck a gigantic blow with his incredible knight sacrifice, 31 N-K4?

So Yusupov was obliged to accept the offer with 31 . . . PxN, thus permitting the powerful thrust with 32 P-B5! There was no defense with 32 . . . RxRch; 33 RxR, R-N2; 34 B-M4. It No. 26 RxRch 22 . . . .

32 ... RxRch; 33 RxR, R-N2; 34 B-N6ch, K-N1; 35 P-B6I, RxB; 36 RxRch, K-B2 (or 36 ... K-R2, 37 Q-KN2, Q-B1; 38 QxP); 37 RxP, Q-N1; 38 Q-R4, threatening either 39 R-R7ch or 39 Q-R5ch.

After 34 P-B6, the defense with 34 ... R-K1; 35 Q-KN2, R-N1; 36 QxPch, K-R3; 37 R-KB11, Q-B1 (37 ... KxB; 38 Q-R7ch, K-N5; 39 K-N2 sets up 40 P-R3mate); 38 R-B3 would have denied Black the means of would have denied Black the means of combsting the looming 39 R-R3! Thus, Yusupov forlornly dropped the exchange with 34 K-R3: 35 PxR, QxP.

On 39 Q-R4ch, Yusupov saw that 39 . K-N2; 40 R-B6!, Q-K2 would allow 41 Q-N5ch, K-R2; 42 Q-Nômate, so he gave up.

## North Carolina and Houston NCAA Semifinalists

Spread Offense of Tar Heels Eliminates Villanova, 70-60

By Michael Wilbon

Washington Post Service RALEIGH, N.C. — With 10:37 emaining in the National Collegitte Athletie Association's Eastern egional final here Sunday, North Carolina guard Jimmy Black gave college basketball's most feared ienal: He put up four fingers, and he Tar Heels spread to the ex-

remities of the court.

But this time North Carolina fidn't stall away the game. The fidn't stall away the game. The far Heels scored on 15 straight possessions, including several rafty back-door lay-ups, to defeat rustrated Villanova, 70-60.

Its 14th consecutive victory en-

bled North Carolina to advance o the final four in New Orleans, where it will play Houston Satur-lay. North Carolina improved its egional-final record to 8-0 — but is never won the national title in is never won the handonal rule in it previous trips to the final four-inder Coach Dean Smith. "It's tough to play from behind gainst North Carolina because

hey run that four corners so well," aid Villanova center John Pinone. They've got smart players who re well trained in running it."
When N.C. went to the four cor-

ers. Villanova remained in its all for more than a minute before he Wildcats went man-on-man leginning with all-America James Worthy's jump-hook with 9:08 oft. North Carolina scored at least me free throw each time it had the he outcome no longer in doubt.

Villanova, the Big East Conferace regular-season champion, sufered from an extreme case of the inters in the first five minutes and ell behind, 20-10. The Wildcats hot 61 percent in the second half int could get oo closer than five tomts as N.C. hit 15 of 20 floor hots after the intermission.

Start Crucial

"Against North Carolina, no natter who the opposition is, the first five minutes are crucial," said osing Coach Rollie Massimino. We had chances to go on sixmint spurts, but we just couldn't et over the hump in the first five ninutes. I guess it was just oer-

North Carolina was outscored rom the field (27-25), but held a inge free-throw advantage - 20-6.
All five North Carolina starters cored in double figures for the econd straight game. But it was he 6-foot-9 Worthy (14 points), the inspired the winners early rith dazzling inside moves.

This was probably the most motional game Ive ever had," aid Worthy, who was visibly ex-ited several times during the ame's most tense moments. "I has just very fired up."

ast before North Carolina went ato its spread offense, which neant the Tar Heels scored on 16 - traight possessions overall.

100 or better.

game, it was Matt Doberty's three-point play for North Carolina with

Villanova's Frank Dobbs had just hit two free throws to pull the Wildcats to within 43-38. Doberty (13 points) slanted behind a screen the basket, took one of Black's back-door passes - Black had 10 assists — and made the lay-up while being fouled by Dwayne McClain. Doherty hit the subsequent free throw, stretching North Carolina's lead to 46-38.

Massimioo replayed that sequence continually after the game, because he could see the play developing — and had warned his players about it. That play is designed for him [Dohery] and we knew it," Massimino said. The players should have known f can't fault Dwayne, though, because he's a freshman

Villanova forward Ed Pinckney, who had 18 points and 10 rebounds — both game highs — was outstanding. He made eight of 13 shots and went oose-to-nose against Worthy and Sam Perkins (13 points). Worthy said about the only difference between him and Pinckney is experience.

If the rest of the Wildcats had played as well as Pinckney and Pinone (14 points), things might have been closer.

Aaron Howard, a good outside shooter and Villanova's best defensive player, was in fonl trouble from the beginning and played only 18 minutes.
With Howard on the bench

most of the way, the slower Pinone fouled out trying to guard Worthy. Point guard Stuart Grange made two of eight shots.

McClain missed five of seven shots and Dobbs four of five, Villanova made almost as many turnovers (nine) as it did baskets (10) in the first half.

The Wildcats stayed close, however, because they played a hard, aggressive defense that held North Carolina to a 41-percent shooting performance before the intermis-

### Jordan Downs Turnbull 81 coaching staff is back intact] at at one point bad me ready to For First Victory as Pro mp the oext guy who said anying, ft was really frustrating, f

BOSTON — Kathy Jordan of the United States won her first professional singles title Sunday by staving off Australian Wendy Turnbull, 7-5, 1-6, 6-4, in the finals

of a women's tour event here. Jordan regained her control after Turnbull -- who had won the pair's previous three encounters — broke service three times in a second-set rout. The 22-year-old Jor-dan ran up a 5-t lead in the final set, mainly thanks to unforced errors. But Turnbull rallied and in the tenth game saved one match point before falling victim to a cross-court forehand winner.

By Thomas Boswell Washington Post Service PONTE VEDRA, Fla. - Deane

Bernan, in his best blazer and tasseled loafers, wallet still in his hip pocket, chose the backstroke. Pete Dye, his mouth full of swamp water, opted for a dead man's float; then, while lying on his back, spouted like a small whale Finally, his brogans full of wet sand, he did the crawl to the oearest sand trap, where he climbed ashore.

Jerry Pote, the hero and culprit of the hour, wallowed like a happy turtle in a favorite bog. With only his wet pate above water, he looked like a rock with eyes. His smile shone even more brightly than the orange golf ball that be had, minutes before, struck within a half-step of the flag on the 18th hole to clinch his triumph here

Golf has never had a scene quite like the one that ended the Tour-nament Players Championship, as the victorious Pate, fresh from spectacular hirdies on the 71st and 72d holes, wrestled the commissioner of golf and the game's most famous architect into the lake by

Pate had the right. With his bril-liant closing 67 for an eight-underpar total of 280 and a two-shot vic-tory over Brad Bryan1 and Scot1 Simpson, Pate fulfilled all of Beman and Dye's hopes for this event - while simultaneously al-

laying their worst fears. Beman and Dye hoped desper-ately last week for last-minute excitement, for memorable winning shots and a well-known name ato the leader board. Pate, a past U.S. Open winner and the sixth-ranked moneywinner in golf the last two seasons, gave them all that and

bought the shot that iced his victory. At the 18th tee, Pate led Bryant by one stroke. He had just sunk a 15-foot, downhill birdie putt at the instantly legendary 132-yard par-3 No. 17. "f won the tournament on the 17th this week," said Pate, who played the water-locked conversa-tion piece in 2-2-3-2.

Instead of playing cautiously on the 72d hole, Pare scorched a draw down the preferred, but more dangerous, left side next to the lake. With 174 yards to the flag, he chose a 5-iron — the stick he used to hit his winning shot from the rough at Atlanta Country Club in the 1976 open. It was also the club he had hit the day before from the same spot and hooked into the

At Atlanta, Pate had left the ball a yard from the hole. This time, he did better. His towering blow drew gasps from the mammouth crowd the natural stadium beside the final hole as the ball plunked 15 feet short of the cup and trickled to within 20 inches.

"You'll oever know just how great this stadium golf is," said

Pate, "unless you're the guy walk-ing up the last fairway with 30,000

people cheering."
That 5-iron shot merely capped a last hour of drama. Dye built the new Players Club course, full of irecherously precise mid-iron shots into devilishly undulating greens, with the final four holes — his prize beasts — in mind. So, with four holes to play, what could be better than a three-way tie at sixunder among Pate, brother-in-taw Bruce Lietzke and the colorful un-

known of the week, Bryant? Lietzke also went into the lake at evening. However, be did it with a bad-tack, 2-iron second shot into the water at the par-5 No. 16, which led him to a bogey. Lietzke, who birdied the first two holes of his final round and led by two shots, at eight-under, until he bo-geyed the eighth and ninth holes, oever regained his composure and finished fourth at 73-283, a shot ahead of Roger Malthie (70/284).

Bryant oever seemed likely to win, but he did refuse to fold. Three times he bogeyed and each time, within three holes, he had atoned with a birdie. But he was ways a bit late. His birdie at No. to came minutes after he had seen Pate birdie the 17th, just across the

Sunday was a day of vindica-tion. Bryant stood up to pressure. Simpson, who choked sadly on the lead, became the only player of the week to birdie Nos. 16, 17 and 18 as he took his share of second

TPC: A Victorious Christening cess. And even Dye's exclung course was vindicated, although Pate quipped, "I gave my [winner's] check back to Pete 10

build some new greens.

Above all, Pate was vindicated. "I bear it every day," be said.
"You should be the best player ion the tour]. You have the best swing.' When the first tournament you even win is the U.S. Open [at the age of 22], that's a monkey oo your back. You go home at night and say, 'Why don't I manage myself better?' That's why I'm half-bald at 28.

"Also, I keep hearing, Jerry Pare's the worst wind player to the world.' If you hear that enough. you start thinking, Boy, I hope it doesn't blow Sunday." Pate, who doesn't blow Sunday." Pate, who closed 70-67 oo two breezy days. grinned.

And at the end, he remained his

candid, outgoing self. "I wasn't playing against Bruce and Brad." he said. "I kept telling my caddie, "We gotta beat Pete Dye, We gotta beat the course, not the score-board."

Even after he bad beateo the course. Pate wouldn't retract the criticism he's leveled at greens created by Dye, a close friend. "I threw Deane in the lake because he had the concept for this place and I threw Pete in because he built it." said Pate, mischievously leaving it moot whether their work was a boon or bane.

"It's too early to rate this course," added Pate. "It's like trying to rate girls when they're born. They get better later."

Jerry Pate and caddie after Sunday's birdie at No. 17 ... We gotta beat the course, not the scoreboard."

hrought to you direct from the U.S. State Department by a grant from the Central Intelligence Ageocy. Ed. will you bring out our

latest guerrilla? Hernandez Juan Pico, a Cubantrained Nicaraguan, who was cap-tured in the jun-gles of El Salvador after making a parachute drop from Ethiopia

into Honduras, Buchwald made bazooka."
"It's good to have you on the show, Juan. They say you're a real tough Marxist hombre. Tell us,

Juan, how long have you been a commie guerrilla?" "I am not a guerrilla. I am a raisin picker from Juarez, Mexico."

\* \* \* "Ha, ha, that's a good one, Juan. It says right here that you are the leader of the First of May Che

### **Original Studio** Of Walt Disney **Sold at Auction**

The Associated Press LOS ANGELES — The garage studio where Mickey Mouse and the rest of the Walt Disney entertainment empire was born was auctioned for \$8,500 by a Disney buff who hopes it will become a landmark at the city's Museum of

Natural History. However, Paul Maher, who bought the oversized tool shed about a year ago, got oeither the \$10,000 be wanted for the 18-footby-12-foot garage nor a guarantee it will be preserved.

The buyers — employees of Walt Disney Productions and members of Hollywood Heritage - will store it in a warehouse "until its ultimate disposition is decided," said spokesman Art Adler. Maher says he is willing to lend

a hand developing it for display of Disney memorabilia. Maher's backyard auctioo also sold 260 pieces of cartoon memorabilia, including a stained glass window featuring Mickey Mouse.

WASHINGTON — "Good Guevara Brigade, and fought in Angola with the Fifth of October men, welcome to the hit television show, Guerrilla of the Week, "That's not me. I am a raisin picker. See, I filled out all the pa-

> "Then what are you doing on this show? "I do oot know, señor. I came to the State Department to apply for a green card so I could pick raisins, and the lady sent me in here. I promise, sir, I will go home as soon as the raisin season is over."

> "Are you trying to tell me that you were not trained by the Cu-bans in Ethiopia with Soviet weapons to overthrow the legal govern-ment in El Salvador?"

"Si, señor, I have never been out of Juarez. But I have a cousin who lives in Fresno, and he will guarantee me a joh if you would just give me a green card." "All right, let's knock off the

play-acting, Juan. Just tell us how you hate the gringos in America and what the KGB told you about the United States?

"I love the United States, sefior, from sea to shiring sea. This land was made for you and me. I am a Yankee doodle dandy, a Yankee doodle do or die. Please, sir, can I have a green card and catch a bus for Fresno?"

"Juan, we don't give out green cards on Guerrilla of the Week." That's too bad. This is the fourth office they've sent me to. Maybe you know someone who will let me pick raisins in Fresno. 1 will light a candle for the secretary of state every day.

"There seems to be a mixup somewhere, ladies and gentlemen Don't turn your dial . . . Ed, where the hell is the real Pico?" "I just checked with the CIA,

Dean. Someone issued him a green card while he was waiting in the Blue Room, and the last anyone saw of him, he got a job driving a taxi at National Airport."

Aged Hippopotamus Dies

COLUMBUS, Ohio - Pete the hippopotamus, the oldest resident of the Columbus Zoo and one of the oldest hippos in captivity, has died at the age of 44. Pete was 1½ when brought to the zoo from Egypt in 1939.

## Susan Sontag Into the Fray

Attack on Communism Shakes Up Intellectualdom

By James Lardner

Washington Post Service
WASHINGTON — "Communism is fascism . . . the most successful variant of fascism . . . fascism with a human face."

It has been five weeks since the

writer and critic Susan Sontag spoke those words at a rally of support for Poland's Solidarity movement, but the echoes have not stopped rebounding through the halls of New York intellectualdom. Mary McCarthy, William F. Buckley Jr., Noam Chomsky, Diana Trilling, Jessica Mitford. Jacopo Timerman, Andrew Kop-kind and Paul Robeson Jr., among others, have taken up their pens in reply. The debate has consumed vast portions of the Village Voice and The Na-tion. Sontag has filed a \$50,000 lawsuit against the Soho News —
"the dreadful Soho News," she called it - for reprinting her speech without permission. [The Soho News has since ceased pub-

No Unanimous Belief

The world is not unanimous in its belief that anything that con-cerns these people and publications should automatically concern us all. Clearly, private grievances, willful misunderstandings and plain old loquaciousness have played their parts in the Sontag contretemps. But even in its most loud-mouthed and convoluted moments, this debate illuminates an important fact of life of the American Left circa 1982: The recent histories of Czechoslovakia, Southeast Asia, Afghanistan and Poland may have eroded the last vestiges of overt sympathy with the com-munist world, but there is intense disagreement still about how communism should be regarded, and about how — and in whose company - it should be op-

In some ways, the argument parallels those of the 1930s, '40s and '50s over Stalin's purges, the Nazi-Soviet Pact and the postwar campaign against a domestic "communist menace." But unlike many of the anti-communists whose views were forged in those times, Sontag was never a Com-munist herself "and therefore am oot oow a 'repentant' ex-Com-munist of the God-who-failed variety," she writes.

Sontag was one of the American radicals who reported back enthusiastically on their travels to Cuba and North Vietnam during ing the 1960s and early '70s. She intended to "make a little trouble" when she addressed the Feb. 6 rally, she says, hut "I think that most people have forgotten or don't know what the context was. I mean, I was talking at a politi-cal meeting, and talking to some

people, not everybody."

The rally had been called, according to its chairman, Ralph Schoenman, "because we felt it was essential for the Left to take up the cause of the Polish workers . . . to deny to Cold Warriors the support of a workers' mass movement in Poland which they would be the first to suppress in the United States just as their clients are doing in Turkey and El Salvador." Knowing she would be one of 20 speakers — the others includ-

ed Kurt Vonnegut, Pete Seeger and Gore Vidal — Sontag says she wanted to say something "a little different." She was concerned that leftists meant to "coopt" the Polish workers' movement without fully acknowledg-ing its character, "and I thought in that situation it might be useful to represent the point of view that people in Poland have about what they've done or what they want. They are oot Marxists. They are not communists. They are not socialists. They hate that system. It's very useful to remind people that there is a gap be-tween people in Eastern Europe and people on the American Left.

Her speech began in the spirit of the evening. She condemned the Reagan administration and "the utter hypocrisy of its sup-port for the Polish democratic movement." But then she urged her audience "not to let our sense of whom we oppose on our side of the frontier between capital-ism and communism lead us into certain hypocrisies and nntruths."

She recalled her own refusal to believe what emigres wrote about life in the Soviet Union and Eastern Europe during the 1950s and '60s. "We thought we loved jus-

REAL ESTATE TO RENT/SHARE

CREECE

tice: many of us did. But we did not love truth enough . . . The result was that many of us, and I include myself, did not under-stand the nature of communist tyranny. We tried to distinguish among communisms — for example, treating 'Stalinism', which we disavowed, as if that were an aberration, and praising other regimes — outside of Europe — which had and have essentially

the same character.' This phase of her speech provoked immediate boos and hisses. The problem was "bad cultural associations," as "Ragtime" author E.L. Doctorow, an-other of the night's speakers, put it. The audience at New York's Town Hall included some with vivid memories of the McCarthy era and a correspondingly lov tolerance for any effort to identi-fy Americans as "soft on communism." In that vein, writer Jessica Mitford said Sontag was "out to get the liberals along with the communists," and "she is not the

Others objected to Sontag's commmunism/fascism equation, "We don't need new semantic adventures in search of new defi-nitions in order to identify the enemy," wrote the exiled Argentine journalist Jacobo Timerman. "Communism is an enemy because it is communism, not because it has borrowed from the fascist arsenal."

Still others dismissed Sontag's message as old news. "Nobody substantially under 75 really needs to be taught" the evils o Soviet-style communism,

Since the speech at Town Hall. Sontag has tried to clarify and, to some extent, moderate the passages that caused greatest of-fense. Communism has become "objectively fascistic," she says, "but of course its origins are different." She never meant to deny an idealistic element in the history of communism, she insists. "That is the great tragedy of our century, that some of the best people in the world have been part of these movements. But I think that one honors them better by pointing out how bad the

She has also retrenched slight-

Susan Sontag

1950 and 1970 and someone in the same period who read only The Nation or the New States-man," she asked in her speech. "Which reader would have been better informed about the realities of communism? The answer. I think, should give us pause."

The current issue of the Nation includes a compilation of Reader's Digest headlines from the 1950s including "Red Slave Drivers and Sadists," "Stalin's Plans for the U.S.A." and "Red Spy Masters in America" by J. Edgar Hoover. But Sontag contends she was only referring to the two magazines' coverage of life behind the Iron Curtain. "I'm not associating myself with other things," she says. "Tve been pilloried as a reader of the Reader's Digest. I don't read the Reader's Digest."

The lawsuit against the Soho News has generated its own con-troversy. "I am a writer and it seems to me I should have the choice of having my entire speech printed in the place where want it printed," says Sontag. The place she wanted it printed was The New York Times, but

ly ou her controversial reference to the Reader's Digest. "Imagine, if you will, someone who read only the Reader's Digest between the suit charges that the unauthorized Soho News version caused The Times to lose interest. (Ultimately, Sontag had the est. (Ultimately, Sontag had the speech printed in The Nation, while omitting The Nation/Reader's Digest comparison, which she says was extemporane-ous. Nation editor Victor Navasky reinserted that passage in a preface.)

> **Out of Context** "I'm not a litigious person," says Sontag. "This is the first vsuit I've ever brought in my hife and I hope to God the last one." The Soho News could have quoted 60 or 70 percent of he speech "and I in no way would have objected to that," she says, but as it is, "they have kidnapped my speech and presented it out-side of its context."

> "What a crabbed view of polit-ical discourse," Nat Hentoff counters in the current Village Voice. "This was not a recital of literary readings. Sontag, among many others, gave a speech in a public forum about a public issue. She gave it, as they say, with an intent to persuade, and therefore could not have been distressed at the possibility her speech would be reported to those unfortunate souls who were unable to be at Town Hall that night."

### PEOPLE:

Independence Council Vetoes Nixon Library

The City Council of Independence, Mo., has called off plans to offer backers of a proposed Richard M. Nixon Library a chance to build it in Independence. The city manager, Keith Wilson Jr., had formed a plan to make Independence, which houses the Truman Library and Museum, the only city brary and Museum, the only city in the country with two presidenin the country with two presidential libraries. But at a City Council meeting, the plan was defeated by a unanimous vote. Councilman John Carnes said he had introduced the resolution himself after coming to realize the state of local council and the council transfer of the council of the co coming to realize the extent of local opposition to the Nixon ar-chive. But it was a call to Margaret Truman Daniel, daughter of the late President Harry S. Truman, that tipped the scale for him. He said she told him that she thought that putting the Nixoo library in Independence, the Trumans' hometown, would be inappropriate. In New York, where she lives, Mrs. Daniel said: "Mr. Nixou's papers should be available to scholars, but in a library situated someplace in his background, and certainly not in Independence."

Richard Nixon himself is in Marrakesh, south Morocco, for a that putting the Nixoo library in

Marrakesh, south Morocco, for a private visit after spending the weekend in Paris, where he stayed at the Ritz and was treated to a 40people dinner party attended by such luminaries as former French premier Raymond Barre and writer Louise Weiss. Nixon will be received by King Hassan in Rabat on Thursday.

Prince Hiro, grandson of Emper-or Hirohito and eldest son of Crewn Prince Akhito, graduated from Gakushuin University with a bachelor of arts degree in Japanese history. The 22-year-old prince, who starts post-graduate studies in history at the university next month, will be the first member of the imperial family to pursue graduate work as a regular student since World War II.

Princess Margaretha, 25, the third of five children of Grand Duke Jean and Grand Duchess Josephine Charlotte of Luxembourg, married Prince Nicolas of Liechtenstein 35, before an accomstein 35, before an assembly of European royalty. The cou-ple will live in Vaduz, the Liechtenstein capital, and Strasbourg where Prince Nicolas is his country's permanent representa-tive to the Council of Europe.
